TITLE 6—AGRICULTURAL CREDIT

Chapter I—Farm Credit Administration

PART 31—FEDERAL LAND BANK OF  
BERKELEY

LIQUIDATION OR PREPAYMENT FEES

Section 31.11 of Title 6, Code of Federal Regulations, is amended to read as follows:

§ 31.11 *Liquidation or prepayment fees.* A prepayment fee is collected from land bank borrowers in those cases where payments in full arise from the refinancing of the loan from a non-Government lending source and where the loan has been in force for less than five years.

Full payments on loans during the first five years the loans are in force are exempt from prepayment fees to the extent of 20 per cent of the original amount per year. On any amount in excess of the 20 per cent per year a prepayment fee of one-half of one per cent per annum for the unexpired portion of the five year period is charged. The 20 per cent per year permitted without prepayment fee may be accumulated from year to year in such a manner that the entire loan may be paid off before the expiration of the five year period without penalty.

Where the funds remitted for prepayment of a loan are in excess of the 20 per cent per year allowed and where they were not obtained from the refinancing of the loan from a non-Government lending source, a certification to that effect is to accompany the remittance to the Bank in order to insure that the prepayment fee will not be charged. (Sec. 12 "Second", 39 Stat. 370, as amended, 12 U.S.C. 771 "Second"; 6 CFR 10.386.) (Res. Ex. Com., May 26, 1942.)

[Serial Number 1818]

#### FLASHER MECHANISMS FOR TAIL LIGHTS

##### EFFECTIVE DATE OF ORDER POSTPONED

Order postponing effective date of Amendments Nos. 04-9,<sup>2</sup> 04-10, 15-1, 60-59, and 60-60.

At a session of the Civil Aeronautics Board held at its office in Washington, D. C., on the 26th day of June, 1942.

Whereas the Civil Aeronautics Board, at a regular session held at its office in Washington, D. C., on February 21, 1942, adopted Amendments Nos. 04-9, 04-10, 15-1, 60-59, and 60-60, Civil Air Regulations; and

Whereas the Board ordered such amendments to become effective July 1, 1942; and

It appearing that:

Certain materials required in the manufacture of flasher mechanisms for the flashing tail lights required by the amendments will not be available in time to permit scheduled air carriers to install flasher lights by July 1, 1942;

Now, therefore, the Civil Aeronautics Board, acting pursuant to sections 205 (a) and 601 of the Civil Aeronautics Act of 1938, as amended:

Orders, That, the effective date of Amendments Nos. 04-9, 04-10, 15-1,

<sup>1</sup> Modifies list posted stockyards 9 CFR 204.1.

<sup>2</sup> Amendments 04-9 and 04-10 appear at 7 F.R. 1709 as 04-14 and 04-15 (see also 7 F.R. 1730). Amendments 15-1, 60-59, 60-60 appear at 7 F.R. 1710.

60-59, and 60-60 be, and hereby is, postponed to November 1, 1942.

By the Civil Aeronautics Board.

### PART 3—DIGEST OF CEASE AND DESIST ORDERS

#### MONTGOMERY WARD AND COMPANY, INC.

§ 3.6 (t) *Advertising falsely or misleadingly—Qualities or properties of product:* § 3.6 (x) *Advertising falsely or misleadingly—Results:* § 3.96 (a) *Using misleading name—Goods—Qualities or properties:* § 3.96 (a) *Using misleading name—Goods—Results.* In connection with offer, etc., of devices for feminine use designated by respondent as "Ward's Posture-Aid Health Belts", "Diab Reducers" and "DuPont's Velutex Perforated Reducers", or any similar device, (1) disseminating, etc., any advertisements by means of United States mails, or in commerce, or by any means, to induce, etc., directly or indirectly, purchase in commerce, etc., of said devices, which advertisements represent, directly or through inference, (a) that the wearing of any of said devices will remove excess flesh from the human body, or from the diaphragm or abdomen or any particular part or area of the body; (b) that the wearing of any of said devices will mold the abdomen gently or correct figure faults in excess of compressing that portion of the body about which said devices are placed and to that extent only improve the appearance of the wearer while the devices are actually being worn; (c) that the wearing of said devices, or any of them, will correct pendulous abdomens or take two or three inches, or any certain number of inches, from the wearer's diaphragm and abdomen; and (d) that said devices, or any of them, will make it easy for the wearer to reduce; and (2) using as a part of the designation or trade name of said devices the words "Health" or "Reducers", when such devices are offered for sale, sold or distributed in commerce; prohibited. (Sec. 5, 38 Stat. 719, as amended by sec. 3, 52 Stat. 112; 15 U.S.C., sec. 45b) [Cease and desist order, Montgomery Ward and Company, Inc., Docket 4447, June 23, 1942]

At a regular session of the Federal Trade Commission, held at its office in the City of Washington, D. C., on the 23d day of June, A. D. 1942.

This proceeding having been heard by the Federal Trade Commission upon the complaint of the Commission, the answer of the respondent, testimony and other evidence introduced before William C. Reeves, John W. Addison, and John J. Keenan, Trial Examiners of the Commission, theretofore duly designated by it, in support of the allegations of the complaint and in opposition thereto, and briefs in support of and in opposition to the complaint, and the Commission having made its findings as to the facts and its conclusion that said respondent has violated the provisions of the Federal Trade Commission Act;

*It is ordered*, That the respondent, Montgomery Ward & Co., Inc., a corporation, its officers, directors, agents, representatives and employees, jointly or severally, directly or through any corporate or other device, in connection with the offering for sale, sale and distribution of devices for feminine use designated by the respondent as "Ward's Posture-Aid Health Belts," "Diab Reducers" and "DuPont's Velutex Perforated Reducers," or otherwise designated, or any device of substantially similar composition or possessing substantially similar properties, whether sold under the same name or under any other name, do forthwith cease and desist from:

1. Disseminating or causing to be disseminated, any advertisement (a) by means of United States mails, or (b) by any means in commerce, as "commerce" is defined in the Federal Trade Commission Act, which advertisement represents, directly or through inference,

(1) That the wearing of any of said devices will remove excess flesh from the human body, or from the diaphragm or abdomen or any particular part or area of the body;

(2) That the wearing of any of said devices will mold the abdomen gently or correct figure faults in excess of compressing that portion of the body about which said devices are placed and to that extent only improve the appearance of the wearer while the devices are actually being worn;

(3) That the wearing of said devices, or any of them, will correct pendulous abdomens or take two or three inches, or any certain number of inches, from the wearer's diaphragm and abdomen;

(4) That said devices, or any of them, will make it easy for the wearer to reduce.

2. Disseminating or causing to be disseminated any advertisement by any means for the purpose of inducing, or which is likely to induce, directly or indirectly, the purchase in commerce, as "commerce" is defined in the Federal Trade Commission Act, of said devices, or any of them, which advertisement contains any of the representations prohibited in paragraph 1 hereof;

3. Using as a part of the designation or trade name of said devices the words "Health" or "Reducers", when such devices are offered for sale, sold or distributed in commerce, as "commerce" is defined in the Federal Trade Commission Act.

*It is further ordered*, That the respondent shall, within sixty (60) days after service upon it of this order, file with the Commission a report in writing, setting forth in detail the manner and form in which it has complied with this order.

By the Commission.

#### PART 3—DIGEST OF CEASE AND DESIST ORDERS

LASHER'S SILK MANUFACTURING COMPANY, INC.

§ 3.66 (j) *Misbranding or mislabeling—Quantity*. In connection with offer, etc., in commerce, of respondent's ribbon seam binding material representing, directly or indirectly, that the number of yards or quantity of ribbon seam binding wound, contained or rolled on spools, cardboard rolls or cards, or on any container in which said product is offered for sale or sold, is greater than the number of yards or quantity of such product actually contained thereon, prohibited. (Sec. 5, 38 Stat. 719, as amended by sec. 3, 52 Stat. 112; 15 U.S.C., sec. 45b) [Cease and desist order, Lasher's Silk Manufacturing Company, Inc., Docket 4612, June 23, 1942]

At a regular session of the Federal Trade Commission, held at its office in the City of Washington, D. C., on the 23d day of June, A. D. 1942.

This proceeding having been heard by the Federal Trade Commission upon the complaint of the Commission testimony and other evidence in support of the allegations of the complaint introduced by the attorney for the Commission, and evidence in opposition to the allegations of the complaint introduced by the attorney for the respondent, before a duly appointed trial examiner of the Commission designated by it to serve in this proceeding, and a stipulation of facts entered into on the record by the attorneys for the Commission and for the respondent, the filing of the trial examiner's report, briefs, oral argument and all intervening procedure being waived, and it being agreed between the attorneys for the Commission and for the respondent that the Commission may make its findings as to the facts and its conclusion based thereon, and issue its order disposing of the proceeding: And the Commission having made its findings as to the facts and its conclusion that respondent has violated the provisions of the Federal Trade Commission Act:

*It is ordered*, That the respondent, Lasher's Silk Manufacturing Company, Inc., a corporation, its officers, representatives, directors, agents and employees, directly or through any corporate or other device, in connection with the offering for sale, sale and distribution of its product, ribbon seam binding material, whether sold under the brand name "Lasher's" or under any other

name, in commerce as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

Representing, directly or indirectly, that the number of yards or quantity of ribbon seam binding wound, contained or rolled on spools, cardboard rolls or cards, or on any container in which said product is offered for sale or sold, is greater than the number of yards or quantity of such product actually contained thereon.

*It is further ordered*, That the respondent shall, within sixty (60) days after the service upon it of this order, file with the Commission a report in writing, setting forth in detail the manner and form in which it has complied with this order.

#### *In the Matter of Daniel Hechtman and Steve Moore, Individually and Trading as H & H Hat Company*

At a regular session of the Federal Trade Commission, held at its office in the City of Washington, D. C., on the 23rd day of June, A. D. 1942.

This proceeding having been heard by the Federal Trade Commission upon the complaint of the Commission and the answer of respondents, in which answer respondents admit all the material allegations of fact set forth in said complaint and state that they waive all intervening procedure and further hearing as to said facts, and the Commission having made its findings as to the facts and conclusion that said respondents have violated the provisions of the Federal Trade Commission Act and the provisions of the Wool Products Labeling Act of 1939;

*It is ordered,* That the respondents, Daniel Hechtman and Steve Moore, individually and trading as H & H Hat Company, or trading under any other name, their representatives, agents and employees, directly or through any cor-

porate or other device, in connection with the offering for sale, sale and distribution of hats in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

(1) Representing that hats composed in whole or in part of used or second-hand materials are new, or are composed of new materials, by failure to stamp in some conspicuous place on the exposed surface of the inside of the hat, in conspicuous and legible terms which cannot be removed or obliterated without mutilating the hat itself, a statement that said hats are composed of second-hand or used materials: *Provided,* That if substantial bands, placed similarly to sweat bands in men's hats, are attached to said hats, then and in that event such statement may be stamped upon the exposed surface of such bands: *Provided further,* That said stampings are of such nature that they cannot be removed or obliterated without mutilating the band and the band itself cannot be removed without rendering the hat unserviceable.

(2) Representing in any manner that hats made in whole or in part from old, used or second-hand materials are new or are composed of new materials.

*It is further ordered,* That the respondents, Daniel Hechtman and Steve Moore, individually and trading as H & H Hat Company, or trading under any other name, their representatives, agents and employees, directly or through any corporate or other device, in connection with the introduction or manufacture for introduction of hats into commerce, or the sale, transportation or distribution of hats in commerce, as "commerce" is defined in the Federal Trade Commission Act and the Wool Products Labeling Act of 1939, do forthwith cease and desist from misbranding hats which contain, purport to contain or in any way are represented as containing wool, reprocessed wool or reused wool, as those terms are defined in the Wool Products Labeling Act of 1939, by failing to place on or affix to each hat a stamp, tag, label or other means of identification showing:

(a) The percentage of the total fiber weight of the hat, exclusive of ornamentation not exceeding five percentum of said total fiber weight, of (1) wool, (2) reprocessed wool, (3) reused wool, (4) each fiber other than wool where said percentage by weight of such fiber is five percentum or more, and (5) the aggregate of all other fibers.

(b) The maximum percentage of the total weight of the hat of non-fibrous loading, filling or adulterating matter.

(c) The name of the manufacturer of the hat; or the manufacturer's registered identification number and the name of a subsequent seller of the hat; or the name of one or more persons introducing said hat into, or engaged in the sale, transportation, or distribution of said hat in, commerce, as "commerce" is defined in the Federal Trade Commission Act and the Wool Products Labeling Act of 1939.

Subsections (a), (b) and (c) of this order are subject to the provisions of the Wool Products Labeling Act of 1939 and

the Rules and Regulations promulgated thereunder and are not to be construed as limiting any applicable provision of said Act or said Rules and Regulations.

It is further ordered, That the respondents shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with this order.

By the Commission.

## TITLE 21—FOOD AND DRUGS

### Chapter I—Food and Drug Administration

[Docket No. FDC-37]

#### PART 36—SHELLFISH: DEFINITIONS AND STANDARDS OF IDENTITY; QUALITY AND FILL OF CONTAINER

##### STANDARDS OF FILL OF CONTAINER FOR CANNED WET PACK SHRIMP AND CANNED DRY PACK SHRIMP, IN NONTRANSPARENT CONTAINERS

##### Final Order

By virtue of authority vested in the Federal Security Administrator by the provisions of the Federal Food, Drug, and Cosmetic Act, 52 Stat. 1046, 1047, and 1055, 21 U.S.C. secs. 341, 343 (h) (2), and 371; the Reorganization Act of 1939, 53 Stat. 561 ff., 5 U.S.C. sec. 133-133r; and Reorganization Plans No. 1 (53 Stat. 1423, 4 F.R. 2727) and No. IV (5 F.R. 2421); and upon the basis of evidence received at the hearing herein; the following order is promulgated hereby:

##### Findings of Fact

1. Since October 1918 shrimp canners have been operating, so far as standards of fill of container are concerned, on the basis of Item 297 of the United States Department of Agriculture Service and Regulatory Announcements, Chemistry 23, issued October 9, 1918. The item, in part, follows:

297. Weights of Shrimp in Cans of Various Sizes. After consideration of what constitutes proper fill in case of canned shrimp, the bureau is of the opinion that canned shrimp properly packed should contain not less than the following "cut-out" weights of shrimp:

##### DRY-PACK SHRIMP

| Size of can (No.) | Diameter  | Height                         | "Cut-out" weight of shrimp |
|-------------------|---|--------------------------------|----------------------------|
|                   | Inches  | Inches                         | Ounces                     |
| 1                 | 2 $\frac{1}{16}$  | 4                              | 5                          |
| 1 $\frac{1}{2}$   | Sanitary, 3 $\frac{1}{16}$<br>Hole and cap, 3 $\frac{3}{8}$ | 3 $\frac{1}{2}$ $\frac{1}{16}$ | 8 $\frac{3}{4}$            |

##### WET-PACK SHRIMP

|                 |   |                                |                 |
|-----------------|---|--------------------------------|-----------------|
| 1               | 2 $\frac{1}{16}$  | 4                              | 5 $\frac{3}{4}$ |
| 1 $\frac{1}{2}$ | Sanitary, 3 $\frac{1}{16}$<br>Hole and cap, 3 $\frac{3}{8}$ | 3 $\frac{1}{2}$ $\frac{1}{16}$ | 9 $\frac{3}{4}$ |

In connection with the canning of shrimp attention is directed to the requirements of Food Inspection Decision 144, that cans should be as full of food as practicable for packing and processing without injuring the quality or appearance of the contents. In the case of food packed with water, brine, etc., the cans should be as full as possible of food and should contain only sufficient liquor to fill the interstices and cover the product. The weights indicated above have been obtained by the bureau after examination of experimental packs of canned shrimp which have been put up in connection with the study of Food Inspection Decision 144.

2. This announcement was made to facilitate the enforcement of the Federal Food and Drugs Act of 1906.

3. In terms of percentages, the item required minimum cut-out weights of 46 percent of the water capacity of the cans for dry pack shrimp and of 53 percent to 55 percent of such capacity for wet pack shrimp.

4. Packers of canned shrimp have uniformly observed the requirements of this announcement and have also adopted the practice of filling cans of sizes which were not listed in the announcement to the same relative proportions, for both dry and wet pack, as those required by the announcement.

5. Cans of shrimp, both wet pack and dry pack, when filled to the minima prescribed by the Service and Regulatory Announcement and to the minima adopted by canners for other can sizes, contain a smaller quantity of shrimp than consumers expect from the size of the can. The percentage of fill is much below that found in other canned foods.

6. It is entirely practicable to pack considerably more shrimp in the cans than is packed under the announcement.

7. It is entirely practicable under existing cannery practice to pack canned shrimp in such manner that the cut-out weight of shrimp taken from each can prepared by the wet pack process will be at least 64 percent of the water capacity of the container and the cut-out weight of shrimp taken from each can prepared by the dry pack process will be at least 60 percent of the water capacity of the container.

8. Standards of fill of container for canned shrimp requiring that each can prepared by the wet pack process be so packed that the drained weight of shrimp taken therefrom will be at least 64 percent of the water capacity of the can and that each can prepared by the dry pack process be so packed that the cut-out weight of shrimp taken therefrom will be at least 60 percent of the water capacity of the can will assure consumers that the containers are not slack filled and are no larger than necessary for the food packed therein.

9. Such standards of fill of container would operate equally well regardless of the size of the shrimp units packed.

10. Standards of fill of container making such requirements can be met in the regular commercial practice, without encountering any difficulties in the packing process and without damage to

the units packed. Such fills as would be required by such standards would give no greater difficulty in packing than is common with many other packs of canned food, even with canned shrimp as presently packed. The only possible difficulty that would arise under such standards is a labeling difficulty with respect to the dry pack shrimp in a number one standard tin can noticed in finding 13.

11. These standards would not require that the cans be filled to absolute capacity. To fill the cans to the maximum possible capacity would require that each shrimp be carefully fitted into place in the cans by hand. This would require an inordinate expenditure of time and would probably increase the price paid by the consumer for canned shrimp.

12. Standards of fill of container for canned shrimp in terms of percentage of water capacity of containers rather than in terms of ounces per can are generally more satisfactory, with the exception noted in finding 13, because they would encompass any size of can that may be used, including sizes not often used but which should be covered by the standard.

13. Water capacity of the standard can varies slightly from can to can dependent upon the profile ring used in can manufacture and the setting of the chucks in the double seamer used by the packer. Average figures for water capacity of the number one standard tin can, the container most commonly used in the shrimp canning industry, have been calculated at 10.90 and others at 10.94, avoirdupois ounces. If these average figures for water capacity of the number one standard tin can were used and if the standard of fill of container for dry pack canned shrimp were set at 60 percent of the water capacity of such can, the number one standard tin can would contain a minimum cut-out weight of 6.54 or 6.56 ounces of shrimp. The standard so fixed to apply to the number one standard tin can would likely result in labeling difficulties since decimal portions of ounces are not generally used in labeling, and since it would not be practicable to pack to the next commonly used fractional portion of the ounce above 6.54 or 6.56 ounces. In view of the labeling difficulty that might arise from the standard as proposed as applied to dry pack canned shrimp in the number one standard tin can, it is reasonable to fix the minimum fill for such can in terms of avoirdupois ounces. Such standard, which would accomplish the same purpose as the general requirements referred to in finding 7 and which would be approximately equivalent to such requirements, is one requiring that the cut-out weight of shrimp taken from each number one can prepared by the dry pack process be at least 6 $\frac{1}{2}$  avoirdupois ounces.

14. Some of the cans used for dry pack canned shrimp have, in the past, had paper liners inserted for the prevention of the undesirable black spots caused by the shrimp touching the sides of the cans with the resultant formation of dark colored sulfides. The liners do not

affect the standard of fill of container, however, since the space a liner occupies in a can is insignificant.

15. The difference in cut-out weights of wet pack and dry pack shrimp is due to the fact that the wet pack shrimp tends to gain weight by absorbing some of the can brine used as a liquid packing medium whereas the dry pack shrimp tends to lose weight due to the cooking out of moisture during heat processing.

16. All members of the shrimp canning industry use cut-out weight as a basis for standardizing their own fill of container. The fill of container of canned shrimp is equitably gauged by the cut-out weight of the finished canned shrimp. Put-in weight would not be an appropriate basis for standardizing the fill because the amount of water present in the shrimp going into the can varies considerably with different manufacturing procedures, and these variations are largely equalized by the final heat processing of the cans to prevent spoilage—the shrimp subjected to more severe brine treatment taking up more moisture in the can.

17. Canned shrimp filled to the minima set forth in findings 7 and 13 can be heat-processed to prevent spoilage without impairing the shrimp or in any way resulting in an unsatisfactory product.

18. A satisfactory and accurate method for determining the cut-out weight of canned shrimp is as follows: Keep the unopened canned shrimp container at a temperature of not less than 68° nor more than 95° Fahrenheit for at least 12 hours immediately preceding the determination. After opening, tilt the container so as to distribute its contents evenly over the meshes of a circular sieve which has been previously weighed. The diameter of the sieve is 8 inches if the quantity of the contents of the container is less than 3 pounds and 12 inches if such quantity is 3 pounds or more. The bottom of the sieve is woven-wire cloth which complies with the specifications for such cloth set forth under "2380 Micron (No. 8)" in Table I of "Standard Specifications for Sieves", published March 1, 1940, in L. C. 584 of the U. S. Department of Commerce, National Bureau of Standards. Without shifting the material on this sieve, so incline the sieve as to facilitate drainage. Two minutes from the time drainage begins, weigh the sieve and the drained shrimp. The weight so found, less the weight of the sieve, is considered to be the weight of the drained shrimp.

19. A satisfactory and accurate method for determining the water capacity of containers is that set forth in § 10.1 (a) of this Chapter [§ 10.010 (a), 4 F.R. 3320]

20. When canned shrimp falls below the standard of fill of container, a label statement which is satisfactory and which fairly informs the consumer of that fact is the general statement of substandard fill specified in § 10.2 (b) of this Chapter [§ 10.020 (b), 4 F.R. 3320] in the manner and form therein specified.

On the basis of the foregoing findings of fact, it is concluded that the following regulation fixing and establishing standards of fill of container for canned wet

pack shrimp and canned dry pack shrimp in nontransparent containers will promote honesty and fair dealing in the interest of consumers:

§ 36.3 *Canned wet pack shrimp and canned dry pack shrimp in nontransparent containers—fill of containers: label statement of substandard fill.* (a) The standard of fill of nontransparent containers for canned wet pack shrimp is a fill such that the cut-out weight of shrimp taken from each can is not less than 64 percent of the water capacity of the container, and, for canned dry pack shrimp (except that packed in the nontransparent cylindrical container which is  $2\frac{1}{16}$  inches in diameter and 4 inches in height), is a fill such that the cut-out weight of shrimp taken from each can is not less than 60 percent of the water capacity of the container. The standard of fill for canned dry pack shrimp packed in the nontransparent cylindrical container which is  $2\frac{1}{16}$  inches in diameter and 4 inches in height is a cut-out weight of not less than  $6\frac{1}{2}$  avoirdupois ounces of shrimp for each container. Water capacity of containers is determined by the general method provided in § 10.1 (a) of this chapter [4 F.R. 3320, § 10.010 (a)] Cut-out weight is determined by the following method:

Keep the unopened canned shrimp container at a temperature of not less than 68° nor more than 95° Fahrenheit for at least 12 hours immediately preceding the determination. After opening, tilt the container so as to distribute the shrimp evenly over the meshes of a circular sieve which has been previously weighed. The diameter of the sieve is 8 inches if the quantity of the contents of the container is less than 3 pounds, and 12 inches if such quantity is 3 pounds or more. The bottom of the sieve is woven-wire cloth which complies with the specifications for such cloth set forth under "2380 Micron (No. 8)" in Table 1 of "Standard Specifications for Sieves", published March 1, 1940, in L. C. 584 of the U. S. Department of Commerce, National Bureau of Standards. Without shifting the material on the sieve, so incline the sieve as to facilitate drainage. Two minutes from the time drainage begins, weigh the sieve and the drained shrimp. The weight so found, less the weight of the sieve, shall be considered to be the cut-out weight of the shrimp.

(b) If canned wet pack shrimp or canned dry pack shrimp, in nontransparent containers, falls below the applicable standard of fill of container prescribed in paragraph (a) of this section, the label shall bear the general statement of substandard fill provided in § 10.2 (b) of this Chapter [4 F.R. 3320, § 10.020 (b)], in the manner and form therein specified. (52 Stat. 1046, 1047; 53 Stat. 561, ff.; 21 U.S.C. secs. 341, 343 (h) (2); 5 U.S.C. Sec. 133-133r; and Reorganization Plans Nos. I and IV, 4 F.R. 2727, 5 F.R. 2421)

#### *Finding of No Controversy and of Existence of Emergency Conditions*

It is hereby found that no controversy with respect to the subject of the hearing exists between the persons who appeared

at the hearing, and that issuance of a final order without prior issuance of a proposed order will promote the purposes of the Act.

It is further found that the standards prescribed by the foregoing regulation specify fills of container which are about 30 percent greater in the case of dry pack shrimp, and about 20 percent greater in the case of wet pack shrimp, than the fills now generally used; that tin plate is used in making nontransparent containers for canned shrimp and for many other canned foods produced in great quantity; that, due to war conditions there exists a shortage of tin plate so serious as to constitute a condition of emergency, which makes imperative the efficient utilization of available supplies so as to meet as nearly as possible consumers needs for canned foods; that the annual packing season for canned shrimp closes about July 15 and a new packing season begins about August 1; and that this emergency necessitates that this order become effective not later than the beginning of the next shrimp packing season.

It is therefore ordered that this order become effective on August 1, 1942.

#### PART 155—CANNED SHRIMP

##### REGULATIONS FOR THE INSPECTION OF CANNED SHRIMP

Under the authority of section 10A of the Federal Food and Drugs Act (49 Stat. 871; 21 U.S.C. 14a), which remains in force and effect and is applicable to the provisions of the Federal Food, Drug, and Cosmetic Act (52 Stat. 1040 et seq.; 21 U.S.C. 301 et seq.), and by virtue of the Reorganization Act of 1939 (5 U.S.C. 133), and Reorganization Plan IV,<sup>1</sup> the following regulations for the inspection of canned shrimp, as published in the FEDERAL REGISTER of January 17, 1941,<sup>2</sup> are hereby amended to read as follows:

AUTHORITY: §§ 155.00 to 155.13, inclusive, issued under sec. 10A, 49 Stat. 871, sec. 902 (a), 52 Stat. 1059, 53 Stat. 561, Reorganization Plan IV; 21 U.S.C., Sup., 372a, 5 U.S.C., Sup., 133 et seq.

§ 155.00 *Application for inspection service.* (a) Applications for inspection service on canned shrimp under the provisions of section 10A of the Federal Food and Drugs Act (which remains in force and effect and is applicable to the provisions of the Federal Food, Drug, and Cosmetic Act) shall be on forms supplied by the Food and Drug Administration. No application for an initial inspection period filed with the Food and Drug Administration after June 1, preceding such period in any year, shall be considered unless the applicant shows substantial cause for failure to file such application on or before June 1 of such year. A separate application shall be

<sup>1</sup> 5 F.R. 2421.

<sup>2</sup> 6 F.R. 457.

made for each inspection period in each establishment in which the service is applied for. Each application for an initial inspection period shall be accompanied by an advance deposit of \$150, as prescribed by § 155.12 (b). Such deposit shall be paid in the manner prescribed by § 155.12 (e).

(b) An application by two or more packers for inspection service in one establishment to be jointly or severally operated by them shall be accompanied by an agreement signed by such packers binding each to be jointly and severally liable for the payment of all fees and deposits required for such establishment by § 155.12.

**§ 155.01 Granting or refusing inspection service; cancellation of application.**

(a) The Administrator of the Federal Security Agency may grant the inspection service applied for when he determines that the establishment covered by such application complies with the requirements of § 155.05.

(b) The Administrator may refuse to grant the inspection service at any establishment for cause. In case of refusal he shall notify the applicant of the reason therefor and shall return to such applicant the payment which accompanied the application, less any expenses incurred by the Administration for preliminary inspection of the establishment, or for other purposes incident to such application.

(c) The applicant, by giving written notice to the Administrator, may withdraw his application for inspection service before an inspector is assigned to the establishment. In case of such withdrawal, the Administrator shall return to such applicant the payment which accompanied the application, less any expenses incurred by the Administration for preliminary inspection of the establishment, or for other purposes incident to such application.

**§ 155.02 Inspection periods.** (a) The initial inspection period in each establishment in which inspection service under these regulations is granted shall be nine months. Extension inspection periods, each of which shall begin at the close of the preceding inspection period, may be granted in such establishment if application therefor, accompanied by a deposit of \$100 as prescribed by § 155.12, is made at least two weeks in advance of the close of such preceding inspection period: *Provided*, That upon request by the packer and with the approval of the Administration, such service during any inspection period may be transferred from one establishment to another to be operated by the same packer; but such transfer shall not serve to lengthen any inspection period or to take the place of an extension inspection period. In case of such transfer the packer shall furnish all necessary transportation of inspectors.

(b) Each initial inspection period shall begin on or after July 1, but not later than September 15, of each year. No initial or extension inspection period shall extend beyond June 30 of any year.

(c) The date of the beginning of each initial inspection period shall be regarded

as the date specified for the beginning of the service in the application therefor, or such other date as may be specified by amendment to such application and approved by the Administration; but if the Administrator is not prepared to begin the service on the specified date, the date of the beginning of such period shall be regarded as the date on which the service is begun.

(d) Inspection service shall be continuous throughout the inspection periods, except that, where the canning of shrimp is suspended as a result of the enforcement of State conservation laws, the inspection service may be withdrawn for the period of suspension or any part thereof. An inspection period in which such a withdrawal occurs shall be lengthened to compensate for the time of withdrawal.

**§ 155.03 Assignment of inspectors.**

(a) An initial assignment of at least one inspector shall be made to each establishment in which inspection service under these regulations is granted. Thereafter the Administration shall adjust the number of inspectors assigned to each establishment to the number required for continuous and efficient inspection.

(b) Any inspector of the Administration shall have free access at all times to all parts of the establishment and to all fishing and freight boats and other conveyances catching shrimp for, or transporting shrimp to, such establishment.

**§ 155.04 Uninspected shrimp excluded from inspected establishments.** (a) No establishment to which inspection service on canned shrimp has been granted shall at any time thereafter can shrimp which has not been inspected under these regulations, or handle or store in such establishment any canned shrimp which has not been so inspected; but this paragraph shall not apply to an establishment after termination of inspection service therein as authorized by § 155.13.

(b) All shrimp delivered to or held in an establishment shall be subject to inspection, but certificates of inspection shall be issued under these regulations only on canned shrimp.

**§ 155.05 General requirements for plant and equipment.** (a) All exterior openings of the cannery shall be adequately screened, and roofs and exterior walls shall be tight. When necessary, fly traps or other approved insect control devices shall be installed.

(b) Picking and packing rooms shall be separate, and fixtures and equipment thereof shall be so constructed and arranged as to permit thorough cleaning. Such rooms shall be adequately lighted and ventilated, and the floors thereof shall be tight and arranged for thorough cleaning and proper drainage. Blanching tanks shall not be located in picking room. Open drains from picking room shall not enter packing or blanching room. If picking and packing rooms are in separate buildings, such buildings shall not be more than 100 yards apart unless adequate provisions are made to enable efficient inspection.

(c) All surfaces of tanks, belts, tables, flumes, utensils, and other equipment with which either picked or unpicked shrimp come in contact after delivery to the establishment, shall be of metal other than lead, or of other nonporous and easily cleanable material. Metal seams shall be smoothly soldered.

(d) Adequate supplies of steam and of clean, unpolluted running water shall be provided for washing, cleaning, and otherwise maintaining the establishment in a sanitary condition.

(e) Adequate toilet facilities of sanitary type shall be provided.

(f) An adequate number of sanitary wash basins, with liquid or powdered soap, shall be provided in both the picking and packing rooms. Paper towels shall be provided in the packing room.

(g) Signs requiring employees handling shrimp to wash their hands after each absence from post of duty shall be conspicuously posted in the picking and packing rooms and elsewhere about the cannery as conditions require.

(h) Suitable space and facilities shall be provided for the inspector to prepare records and examine samples, and for the safekeeping of records and equipment.

(i) One or more suitable washing devices and one or more suitable inspection belts shall be installed for the washing and subsequent inspection of the shrimp before delivery to the picking tables.

(j) Suitable containers, flumes, chutes, or conveyors shall be provided for removal of offal from picking room.

(k) Picking tables shall be equipped with flumes supplied with clean, unpolluted water for removing the picked shrimp.

(l) Equipment shall be provided for code marking cans or other immediate containers.

(m) An automatic container counting device shall be installed in each cannery line.

(n) Each processing retort shall be fitted with at least the following equipment:

(1) An automatic control for regulating temperatures.

(2) An indicating mercury thermometer of a range from 170° F. to 270° F. with scale divisions not greater than 2°. For steam cook such thermometers shall be installed either within a fitting attached to the shell of the retort or within the door or shell of the retort. For water cook such thermometers shall be installed in the door or shell of the retort below the water level. If the thermometer is installed within a fitting such fitting shall communicate with the chamber of the retort through an opening at least 1 inch in diameter. Such fitting shall be equipped with a bleeder at least 1/8 inch in diameter. If the thermometer is installed within the door or shell of the retort the bulb shall project at least two-thirds of its length into the principal chamber thereof.

(3) A recording thermometer of a range from 170° F. to 270° F. with scale divisions not greater than 2°. The bulb of such thermometer shall be installed as prescribed for the indicating mercury thermometer. The case which houses

the charts and recording mechanism shall be provided with an approved lock, all keys to which shall be in the sole custody of the inspector.

(4) A pressure gauge of a range from 0 to 30 pounds with scale divisions not greater than 1 pound. Such gauge shall be connected to the chamber of the retort by a short gooseneck tube. The gauge shall be not more than 4 inches higher than the gooseneck.

(5) For steam cook, a blow-off vent of at least  $\frac{3}{4}$  inch inside diameter in the top of the retort.

(6) For steam cook, a  $\frac{1}{8}$  inch bleeder in top of retort.

(7) For steam cook, a baffle plate in the base of retort, unless retort baskets with perforated base plates are provided.

#### § 155.06 General operating conditions.

(a) The decks and holds of boats catching shrimp for, or transporting shrimp to, an inspected establishment, and the bodies of other conveyances so transporting shrimp shall be kept in a sanitary condition. When necessary the shrimp shall be iced down immediately after they are caught and shall be kept adequately refrigerated until delivery to cannery.

(b) Canneries, cannery freight boats, and other cannery conveyances shall accept only fresh, clean, sound shrimp.

(c) After delivery of each load of shrimp to the cannery, decks and holds of each boat and the body of each other conveyance making such delivery shall be washed down with clean, unpolluted water and all debris shall be cleaned therefrom before such boat or other conveyance leaves the cannery premises.

(d) Before picking the shrimp shall be washed with clean, unpolluted water and then passed over the inspection belt and culled to remove all shrimp that are filthy, decomposed, putrid, or otherwise unfit for food, and all extraneous material.

(e) Offal from picking tables shall not be piled on the floor, but shall be placed in suitable containers for frequent removal, or shall be removed by flumes, conveyors, or chutes.

(f) Shrimp shall not be picked into cups but shall be picked into flumes which immediately remove the picked meats from the picking tables.

(g) Picked shrimp being transported from one building to another before enclosure in the can or other immediate container shall be properly covered and protected against contamination.

(h) From the time of delivery to the cannery up to the time of final processing, shrimp shall be handled expeditiously and under such conditions as to prevent contamination or spoilage.

(i) The packer shall immediately destroy for food purposes all shrimp in his possession condemned by the inspector as filthy, decomposed, putrid, or otherwise unfit for food. Shrimp condemned on boat or unloading platform shall not be taken into the ice box or picking room.

(j) All portions of the establishment shall be adequately lighted to enable the inspector to perform his duties properly.

(k) All floors and other parts of the establishment, including unloading platforms, and all fixtures, equipment, and utensils shall be cleaned as often as may be necessary to maintain them in sanitary condition.

(l) The packer shall require all employees handling shrimp to wash their hands after each absence from post of duty.

(m) The packer shall require all employees to observe proper habits of cleanliness, and shall not knowingly employ in or about the establishment any person afflicted with infectious or contagious disease.

(n) Offal, debris, or refuse from any source whatever, shall not be allowed to accumulate in or about the establishment.

§ 155.07 Code marking. (a) Code marks shall be affixed to all cans and other immediate containers before they are placed in the processing retorts. Such marks shall show at least (1) the date of packing, (2) the establishment where packed, and (3) the size of the shrimp when such shrimp were graded for size and are not in containers through which they are clearly visible.

(b) Keys to all code marks shall be given to the inspector.

(c) Each lot shall be stored separately pending final inspection. For the purposes of the regulations in this part all cans or other immediate containers bearing the same code mark shall be regarded as comprising a lot.

§ 155.08 Processing. (a) The closure of the can or other immediate container and the time and temperature of processing the canned shrimp shall be adequate to prevent bacterial spoilage.

(b) The following processes shall be the minimum employed for the containers indicated:

| DRY PACK          |                          |                |                 |                 |

(c) For steam cook, blow-off vent shall be open during the coming-up period until the mercury thermometer registers at least 215° F. Bleeders shall emit steam during the entire processing period.

(d) The inspector shall identify each record on the thermometer chart with the code mark of the lot to which such record relates and the date of such

record. The Administration shall keep such charts for at least five years, and upon request shall make them available to the packer.

(e) The packer shall keep for at least one year all shipping records covering shipments from each lot, and upon request shall furnish such records to any inspector of the Administration.

#### § 155.09 Examination after canning.

(a) Adequate samples shall be drawn by the inspector from each lot of canned shrimp and shall be examined to determine whether or not such canned shrimp conforms to all requirements of the Federal Food, Drug, and Cosmetic Act, amendments thereto, and regulations thereunder.

(b) The packer shall destroy for food purposes, under the immediate supervision of the inspector, all canned shrimp condemned by the inspector as not complying with § 155.08 (a), or as filthy, decomposed, putrid, or otherwise unfit for food.

§ 155.10 Labeling. (a) Labels on canned shrimp covered by a certificate issued as authorized by § 155.11 (a) shall bear the mark "Production Supervised by U. S. Food and Drug Administration." Such mark shall be plainly and conspicuously displayed in type of uniform size and style on a strongly contrasting uniform background; and shall appear on the principal panel or panels of the label so as to be easily observable in connection with the name of the article.

(b) Two proofs, or one proof and one photostat thereof, or eight specimens of all labeling intended for use on inspected canned shrimp or on or within the cases therefor, shall be submitted to the Administration for approval. If proofs or photostat and proof are submitted, eight specimens of the labeling shall be sent to the Administration after printing. The Administration is hereby authorized to approve labeling for use on or with canned shrimp inspected under these regulations; approval shall be subject to the condition that such labeling shall be so used as to comply with the provisions of the Federal Food, Drug, and Cosmetic Act, amendments thereto, and regulations thereunder. The Administration is also authorized hereby to revoke any such approval for cause. The Administration shall not approve labeling for canned shrimp intended for export under the provisions of § 155.11 (e).

(c) No commercial brand or brand name appearing on labeling approved as authorized under paragraph (b) of this section, and no labeling simulating any such approved labeling, shall be used after such approval on canned shrimp other than that which has been handled, prepared, and packed in compliance with all provisions of these regulations; but this subsection shall not apply to any packer's labeling after termination of inspection as authorized by § 155.13, or to any distributor's labeling after three months' written notice by the owner thereof to the Administration that the use of such labeling on inspected canned shrimp has been discontinued and will not be resumed.

§ 155.11 *Certificates of inspection; warehousing and export permits.* (a) After finding that the canned shrimp comprising any parcel (1) has been handled, prepared, and packed in compliance with all provisions of these regulations, (2) bears labeling approved as authorized under § 155.10 (b), and (3) complies with all the provisions of the Federal Food, Drug, and Cosmetic Act, amendments thereto, and regulations thereunder, the inspector shall issue a certificate showing that such canned shrimp so complies. The certificate shall specify the code marks to which it applies, the quantity of the parcel so marked, the place where such parcel is stored, the size of the shrimp, the size and kind of containers, the type of pack, the commercial brand name on the labels, the quality grade of the shrimp if it is fancy, and the condition of the shrimp if it is broken. Such certificate shall become void if such labeling is removed, altered, obliterated, or replaced; but such canned shrimp may be relabeled under the supervision of an inspector and recertified if the inspector finds that, after being relabeled, it complies with the requirements laid down by this paragraph for the issuance of a certificate.

(b) Unless covered by certificate, canned shrimp shall be moved from an inspected establishment only for storage authorized under paragraph (c) of this section, or export authorized under paragraph (e) of this section, or for destruction as provided by § 155.09 (b).

(c) Applications to move unlabeled canned shrimp from storage in a warehouse elsewhere than in the establishment where such shrimp was packed shall be on forms supplied by the Administration. The application shall give the name and location of the warehouse in which such canned shrimp is to be stored, and shall be accompanied by an agreement signed by the operator of such warehouse that inspectors shall have free access at all times to all canned shrimp so stored, and that conditions which will preserve the identity of each parcel of such canned shrimp shall be continuously maintained pending issuance of a certificate thereon or removal as authorized by paragraph (d) of this section. If such application is approved and it appears to the inspector that the canned shrimp comprising any parcel (1) has been packed in compliance with these regulations, (2) is not slack filled, and (3) conforms, except for the absence of labeling, to all requirements of the Federal Food, Drug, and Cosmetic Act, amendments thereto, and regulations thereunder, the inspector shall issue to the applicant, on his request, a warehousing permit covering such canned shrimp. Such permit shall specify the code marks to which it applies, the quantity of the parcel so marked, the places from and to which such parcel is to be moved, the size of the shrimp, the size and kind of containers, the type of pack, and the quality grade of the shrimp if it is fancy, and the condition of the shrimp if it is broken. When any provision of the agreement is violated the Administration may revoke any permit

issued pursuant to such agreement, and may also revoke its approval of the application for warehousing which accompanied such agreement.

(d) Unless covered by certificate, canned shrimp stored under the authority of paragraph (c) of this section shall be moved from the warehouse where stored only for restorage under such authority, or for return upon written permission of the inspector to the establishment where packed, or for export authorized under paragraph (e) of this section, or for destruction as provided by § 155.09 (b).

(e) Section 801 (d) of the Federal Food, Drug, and Cosmetic Act provides that a food intended for export shall not be deemed to be adulterated or misbranded under the Act if it (1) accords to the specifications of the foreign purchaser, (2) is not in conflict with the laws of the country to which it is intended for export, and (3) is labeled on the outside of the shipping package to show that it is intended for export. An application to export canned shrimp under the provisions of section 801 (d) of the Act shall be accompanied by the original or a verified copy of the specifications of the foreign purchaser; if so required by the Administration, evidence showing that such canned shrimp is not in conflict with the laws of the country to which it is intended for export; and, if shipment of labeled canned shrimp is specified or directed, eight specimens of the labeling therefor. If canned shrimp prepared or packed according to such specifications is not in conflict with the laws of such country, the Administration shall direct the inspector to issue to the applicant an export permit covering such canned shrimp comprising any parcel ordered by such purchaser under such specifications, when the inspector finds that such canned shrimp was packed in compliance with the requirements of these regulations regarding sanitary conditions and processing, is not filthy, decomposed, putrid, or otherwise unfit for food, accords to such specifications, and is labeled on the outside of the shipping package to show that it is intended for export. Such permit shall specify the code marks to which it applies and the quantity of the parcel so marked, and shall show that such canned shrimp was packed under sanitary conditions, is wholesome, and accords to such specifications. The applicant shall furnish to the inspector documentary evidence showing the exportation of all such canned shrimp. Canned shrimp intended for export under this subsection shall not be stored in any warehouse in the United States elsewhere than in the establishment where such canned shrimp was prepared or packed, except on written permission of the inspector, or of the chief of the Food and Drug Administration Station within whose territory such warehouse is located.

§ 155.12 *Inspection fees.* (a) Except as otherwise provided by these regulations, the fee prescribed for inspection service shall be four (4) cents for each case of canned shrimp packed under

such service. For the purpose of this section a case of canned shrimp shall be 48 No. 1 cans (211 x 400) or the equivalent thereof. The sum of not less than \$200 shall be paid at the beginning of the initial inspection period, and thereafter similar advance deposits shall be made whenever necessary to prevent arrears in the payment of fees, unless the Administration on an estimate of output authorizes payment in other amounts. Any excess advance deposits so made for the fiscal year shall be returned to the packer by the Administration after the inspection service is closed in the establishment.

(b) In addition to the fee prescribed by paragraph (a) of this section, an advance deposit of \$100 multiplied by the number of months of the inspection period shall be paid for each inspection period in each establishment as follows: Each application for an initial inspection period shall be accompanied by an advance deposit of \$150, and subsequent deposits of \$150 shall be made at monthly intervals from the date of the beginning of such period as defined in § 155.02 (c) until the total amount of the deposit for the initial inspection period shall have been made. Each application for an extension inspection period shall be accompanied by a deposit of \$100, and at subsequent monthly intervals thereafter additional deposits of \$100 shall be made; but if the final deposit is to cover a time of less than 30 days, then such deposit shall be at the rate of \$3½ for each day of such time. Advance deposits made under this subsection shall be charged with the cost of the inspection service which has not been provided for by fees under paragraph (a) of this section and any appropriations made by Congress for such purpose. The deposits by each packer shall be so charged in the same ratio to the total deposits as the number of months of inspection service rendered in such packer's establishment bears to the total number of months of inspection service rendered in all establishments. The balance remaining after such charges have been made shall be returned by the Administration to the packers at the end of the fiscal year. When inspection service is withdrawn from an establishment as authorized by § 155.13 (a), the Administration shall not return to the packer any of the advance deposits made for such establishments; and such deposits shall be charged with the cost incurred and the balance transferred into the Treasury as a miscellaneous receipt. Such deposits shall not be included in the total deposits when computing charges against such total deposits.

(c) A separate fee shall be paid to cover all expenses, incurred in accordance with the regulations of the Government, for salary, travel, subsistence, and other purposes incident to inspection for the purpose of issuing a certificate or warehousing or export permit on canned shrimp stored or held at any place at which a sea food inspector is not assigned.

(d) When the cannery and the cannery warehouse of an establishment are located at different points of such dis-

tance apart that transportation between them is required for the inspector to perform his duties in the establishment, the packer shall furnish such transportation or shall pay an extra fee to cover all expenses therefor.

(e) All payments required by the regulations in this part shall be by bank draft or certified check, collectible at par, drawn to the order of the Treasurer, United States, and payable at Washington, D. C. All such drafts and checks, except those for the payment required by § 155.00, shall be delivered to the inspector and promptly scheduled to the Food and Drug Administration, Federal Security Agency, Washington, D. C., whereupon after making appropriate records thereof they will be endorsed and transmitted to the Chief Disbursing Officer, Division of Disbursement, Treasury Department, for deposit to the receipt account "128013 Deposits, Sea Food Inspection Fees, Food and Drug Administration."

(f) Refunds to the packers making advance deposits will be by check drawn on the Treasury of the United States pursuant to refund vouchers duly certified and approved by the designated administrative officers.

§ 155.13 *Suspension, withdrawal, and termination of inspection service.* (a) The Administration may suspend and the Administrator may withdraw inspection service in any establishment (1) upon failure of the packer to comply with any provision of these regulations, or (2) upon the dissemination by the packer or any person in privity with him of any representation which is false or misleading in any particular regarding the application to any sea food of the inspection service provided by the regulations in this part.

(b) When inspection service is suspended in an establishment, as authorized by paragraph (a) of this section, the Administration shall not lengthen the inspection period in such establishment to compensate for any of the time of suspension.

(c) After inspection service for a fiscal year is closed in an establishment, but before the resumption of packing therein during the next fiscal year, the packer may terminate inspection service under the regulations in this part by giving written notice of such termination to the Administration.

The regulations in this part, so amended, shall become effective on July 1, 1942.

[SEAL] WATSON B. MILLER,  
Acting Administrator.

## TITLE 26—INTERNAL REVENUE

### Chapter I—Bureau of Internal Revenue

[T. D. 5159]

#### PART 182—INDUSTRIAL ALCOHOL

##### MISCELLANEOUS AMENDMENTS

By virtue of and pursuant to §§ 3105, 3124 (a) (6), and 3176 of the Internal

Revenue Code, Regulations 3, is hereby amended as follows:

Sections 182.164 (a), (b), 182.171, 182.173, 182.598, 182.600, 182.601, 182.603 (g), 182.643 (g) (1) (i), 182.660, 182.661, 182.662, 182.663, 182.700 (a), 182.847 (b), 182.860 (c), and 182.863 are amended to read as follows:

§ 182.164 *Use*—(a) *By Federal, State, and municipal agencies.* Tax-free alcohol withdrawn under the foregoing provisions of law and regulations for use of the United States must be used solely for nonbeverage purposes. Such alcohol, when withdrawn by States and Territories, or any municipal subdivision thereof, or the District of Columbia, must be used solely for mechanical and scientific purposes, and such use, or the use of any resulting product, must be confined to premises under the control of the State or Territory, or municipal subdivision thereof, or the District of Columbia: *Provided*, That tax-free alcohol withdrawn for use at hospitals, sanatoriums, clinics, colleges, and laboratories operated by States and Territories, or any municipal subdivision thereof, or by the District of Columbia, may be used as provided in paragraph (b).

(b) *By hospitals, sanatoriums, clinics, colleges, and laboratories.* Tax-free alcohol withdrawn by hospitals or sanatoriums, or by clinics operated for charity and not for profit, may be used only for medicinal, mechanical, and scientific purposes and in the treatment of patients. Scientific universities or colleges of learning shall use such alcohol only for scientific, mechanical, and medicinal purposes, and any laboratory withdrawing alcohol free of tax must use the same exclusively in scientific research. The use of the alcohol and resulting products shall be confined strictly to the premises of the institution withdrawing the alcohol, except that where any such resulting product does not contain alcohol and is to be used in further research, it may be removed, without sale, for that purpose only, such research to be conducted at any scientific university or college of learning, laboratory engaged in scientific research, or hospital or clinic, and except that bona fide medicines compounded with alcohol withdrawn by clinics operated for charity and not for profit may be used outside of such clinics for treatment of the patients thereof, but such medicines may not be sold.

§ 182.171 *Application, Form 1444.* Alcohol may be withdrawn tax-free by the United States or any governmental agency thereof, upon filing application on Part I of Form 1444, "Application by the United States or Governmental Agency for Permit to Procure Alcohol Free of Tax," and issuance of permit therefor. The Form 1444 shall be executed in triplicate and forwarded direct to the Commissioner. The application must state the name of the department or independent bureau or agency, and the name of the proprietor of the industrial alcohol plant or bonded warehouse, the registry number and location thereof, from which alcohol will be withdrawn tax-free. (Secs. 3105, 3114 (a), 3124 (a) (6), 3176, I.R.C.)

§ 182.173 *Application, Form 1486.* Specially denatured alcohol may be withdrawn by the United States or any governmental agency thereof upon filing application on Part I of Form 1486, "Application by the United States or Governmental Agency for Permit to Procure Specially Denatured Alcohol," and issuance of permit therefor. The Form 1486 shall be executed in triplicate and forwarded direct to the Commissioner. The application must state the name of the department or independent bureau or agency and the name of the proprietor of the denaturing plant or of the bonded dealer from whom the specially denatured alcohol is to be purchased. (Secs. 3105, 3114 (a), 3124 (a) (6), 3176 I.R.C.)

§ 182.598 *Delivery to carrier.* If the alcohol is withdrawn from a bonded warehouse located elsewhere than at the port of exportation, the exporter will deliver the shipment to a carrier for transportation to the port of exportation. He shall procure a copy of the bill of lading covering such transportation and deliver it to the storekeeper-gauger at the bonded warehouse. The alcohol must be consigned to the collector of customs of the port of export and must be properly described in the bill of lading by serial numbers and quantity. (Secs. 2885, 2886, 3105, 3124 (a) (6), 3176 I.R.C.)

§ 182.600 *Exportation through border ports.* In case of exportation through a border port to a contiguous foreign territory, the bill of lading will cover the transportation of the alcohol to its destination and must show the routing, particularly as to the carrier which will deliver the shipment for customs inspection at the border. The shipment must be consigned in care of the collector of customs or deputy collector of customs at the border port. The exporter shall deliver a copy of the bill of lading to the storekeeper-gauger at the bonded warehouse. (Secs. 2885, 2886, 3105, 3124 (a) (6), 3176 I.R.C.)

§ 182.601 *Disposition of forms.* When the packages of alcohol have been delivered and the exporter has furnished a copy of the bill of lading, the storekeeper-gauger will forward immediately a complete set of the Forms 1440 and 1456 and bill of lading to the district supervisor and one copy each of Form 1440 and Form 1456 to the collector of customs at the port of exportation and return the remaining copies of Forms 1440 and 1456 to the proprietor of the warehouse, who will retain them thereat as a permanent record in accordance with section 182.643. (Secs. 2885, 2886, 3105, 3124 (a) (6), 3170, 3176, I.R.C.)

§ 182.603 *Proceedings at port of export.* \* \* \*

(g) *Return of inspection and lading; export bill of lading.* After the alcohol has been duly laden on board the export vessel or car, the customs inspector shall execute his certificate of inspection and lading on Part 3 of Form 691 and forward all copies to the collector of customs, together with Form 696, if any, and the exporter shall file immediately one copy of the export bill of lading with the district supervisor, unless, in the case of ex-

portation through border ports, a through bill of lading was filed at the time of withdrawal from warehouse as provided in § 182.600.

§ 182.643 *Form 1440.* \* \* \*

(g) \* \* \*

(1) *If withdrawn on original gauge.* When alcohol is to be withdrawn without regauge, a transcription of the original gauge shall be made, in triplicate, appropriately headed to show the purpose for which withdrawn or transferred. Notation will be made to the effect that withdrawal is made on entry gauge.

(i) *Tax-free withdrawals.* When alcohol is withdrawn for scientific purposes, etc., or for the use of the United States or governmental agency thereof, Form 1440 will be executed in triplicate, and the purpose for the withdrawal will be entered as "For hospital use," "Laboratory use," or "Use of United States," etc., as the case may be.

§ 182.660 *States, Territories, etc., or the District of Columbia.* Tax-free alcohol when withdrawn by the several States and Territories, or municipal subdivisions thereof, or the District of Columbia, must be used solely for mechanical and scientific purposes, and such use, or the use of any resulting product, must be confined to the premises under the control of the State or Territory, or municipal subdivision thereof, or the District of Columbia: *Provided*, That tax-free alcohol withdrawn for use at hospitals, sanatoriums, clinics, colleges, and laboratories operated by States and Territories, or any municipal subdivision thereof, or by the District of Columbia, may be used as provided in section 182.661. (Secs. 3105, 3108, 3114 (a), 3124 (a) (6), 3176, I.R.C.)

§ 182.661 *Hospitals, sanitariums, or clinics.* Tax-free alcohol withdrawn by hospitals, sanitariums, or clinics operated for charity and not for profit, may be used only for medicinal, mechanical, and scientific purposes and in the treatment of patients. The use of the alcohol and the resultant products shall be confined strictly to the premises of the institution withdrawing the alcohol, except that where any such resulting product does not contain alcohol and is to be used in further research, it may be removed, without sale, for that purpose only, such research to be conducted at any scientific university or college of learning, laboratory engaged in scientific research; or hospital or clinic, and except that bona fide medicines compounded with alcohol withdrawn by clinics operated for charity and not for profit may be used outside of such clinics for treatment of the patients thereof, but such medicines may not be sold. (Secs. 3105, 3108, 3114 (a), 3124 (a) (6), 3176, I.R.C.)

§ 182.662 *Scientific universities and colleges of learning.* Scientific universities and colleges of learning shall use tax-free alcohol only for scientific, mechanical, and medicinal purposes and use thereof and of any resulting products shall be confined strictly to the premises

of the institution withdrawing the alcohol, except that where any such resulting product does not contain alcohol and is to be used in further research, it may be removed, without sale, for that purpose only, such research to be conducted at any scientific university or college of learning, laboratory engaged in scientific research, or hospital or clinic. (Secs. 3105, 3108, 3114 (a), 3124 (a) (6), 3176, I.R.C.)

§ 182.663 *Laboratories.* Any laboratory withdrawing alcohol free of tax must use such alcohol exclusively in scientific research, and the use thereof and of any resulting products shall be confined strictly to the premises covered by the basic permit, Form 1447, except that where any such resulting product does not contain alcohol and is to be used in further research, it may be removed, without sale, for that purpose only, such research to be conducted at any scientific university or college of learning, laboratory engaged in scientific research, or hospital or clinic. (Secs. 3105, 3108, 3114 (a), 3124 (a) (6), 3176, I.R.C.)

§ 182.700 *Regauge of distillates.* \* \* \*

(a) *Losses.* No allowance can be made for losses of such distillates occurring during transportation to the denaturing plant or while stored in such plant prior to denaturation. The tax will be collected on all such losses. The losses of such distillates in transit to the denaturing plant and while stored thereat shall be shown as a separate entry in the same columns in which losses of alcohol are shown on Form 1468-A. (Secs. 2916, 3124 (a) (6), 3176, I.R.C.)

§ 182.847 *Losses.* \* \* \*

(b) *Labels.* Where proprietary solvents and lacquer thinners are packaged by producers or their agents in containers of 5 wine gallons or less, such containers must be labeled to show the producer's name, address, and permit number: *Provided*, That where the products are packaged for a dealer, the name and address of the dealer may be shown in lieu of the name and address of the producer, but the basic permit number of the producer must be placed on the labels. Where dealers repackage proprietary solvents or lacquer thinners in containers of not over 5 wine gallons capacity, as authorized in paragraph (d), the name, address, and basic permit number of the producer, or the name and address of the dealer and the basic permit number of the producer, shall likewise be placed on the labels of all containers of one-half gallon or more capacity.

§ 182.860 *General.* \* \* \* (c) *Repackaging.* The district supervisor may authorize the manufacturer to ship products in containers of 1 gallon or more capacity to persons legitimately engaged in a bona fide bottling and distributing business, such as beauty and barber supply dealers, wholesale drug stores and general wholesale stores, for repackaging in containers conforming to the requirements of paragraph (b), for sale to the

persons enumerated in paragraphs (a) and (d) hereof. Application for such permission must be made by the bottler and distributor to the district supervisor of the district in which the bottler and distributor is located. The district supervisor will determine the legitimacy of the business of the applicant and the bona fides of his reasons for desiring to repackage the products. If the district supervisor determines that the applicant may be properly permitted to repackage the products and the manufacturer is located in his district, he will authorize the manufacturer to so ship the products to the applicant; if the manufacturer is located in another district, the district supervisor will forward the application with his findings and recommendation to the supervisor of such district, who, if he sees no objection to the proposed shipment, will authorize the manufacturer to so ship the products.

§ 182.863 *General.* Except as provided in paragraph (a), a permittee manufacturing tincture of iodine, U. S. P., half strength tincture of iodine, U. S. P., mild tincture of iodine, U. S. P., and other tinctures of iodine, with specially denatured alcohol may not sell in excess of one 50-gallon barrel or the equivalent thereof in containers of more than 1-gallon capacity in one month to any one customer. Sales may be made by permittees in any desired quantities in containers having a capacity of 1 gallon or less.

Section 182.653 (b) *Withdrawal permit* is amended by adding at the end thereof a new paragraph, reading as follows:

(3) *Exception.* The district supervisor, may, in his discretion, by appropriate modification or amendment of the withdrawal permit, pursuant to application on Part I of Form 1450, (1) where the quantity that may be withdrawn during a calendar month under paragraph (b) amounts to less than 1 drum (110 proof gallons), authorize the withdrawal during a calendar month of a quantity not exceeding 1 drum (110 proof gallons), if the bond of the applicant is in a sufficient penal sum to cover such increased withdrawal, or (2) where the applicant does not have on file a bond and the quantity that may be withdrawn during a calendar month under paragraph (b) amounts to less than 10 proof gallons, authorize the withdrawal during a calendar month of a quantity not exceeding 10 proof gallons: *Provided*, That the total quantity authorized under (1) and (2) shall not exceed the quantity specified in the applicant's basic permit, Form 1447, that may be withdrawn during the period for which it is issued.

Section 182.829 (b) (2) is amended, and a new paragraph is added at the end thereof, to read as follows:

(2) *Excessive withdrawals.* Withdrawals must be so regulated by the permittee that he will not have on hand, in transit, and unaccounted for during any calendar month more than the quantity of specially denatured alcohol, plus the

quantity of recovered or restored denatured alcohol, and recovered or restored articles (which are in the form of denatured alcohol) so authorized by his basic permit, Form 1481.

(3) *Exception.* The district supervisor may, in his discretion, by appropriate modification or amendment of the withdrawal permit, pursuant to application on Part I of Form 1485, and, in the case of (1) and (2), upon proper showing of necessity therefor, (1) in the case of a seasonal business, authorize withdrawal during any calendar month of not to exceed a two months' allowance, or (2) issue to the permittee, in lieu of an annual permit, Form 1485, one or more withdrawal permits for a specified quantity or period, subject to the restrictions in this section as to the maximum quantity that may be withdrawn during any one month, or (3) where the quantity that may be withdrawn during a calendar month under paragraph (b) amounts to less than 1 drum (55 wine gallons), authorize the withdrawal during a calendar month of a quantity not exceeding 1 drum (55 wine gallons), or (4) where the applicant does not have on file a bond and the quantity that may be withdrawn during a calendar month under paragraph (b) amounts to less than 5 wine gallons, authorize the withdrawal during a calendar month of a quantity not exceeding 5 wine gallons: *Provided*, That the total quantity authorized under (1), (2), (3), or (4) shall not exceed the quantity specified in the applicant's basic permit, Form 1481, that may be withdrawn during the period for which it is issued: *Provided further*, That such additional withdrawals shall not be authorized under (1), (2), or (3), unless the bond of the permittee is in a sufficient penal sum to cover the increased quantity in addition to the regular withdrawal allowance.

| Note: The A. P. I. gravity of all crude oils must be stated on the application  |          |                    |                 |
| A—Crude oils or any other materials, except motor fuels and gasoline as defined below, from which by commercial distillation there can be separated more than 3% of a total fraction having an A. S. T. M. end point of 300° F. which will have, with the addition of 3 cc tetraethyl lead per gallon, an octane number by the A. S. T. M. Knock Test Method of 80 or more  | L. ton   | 5011.03            | C               |
| B—Crude Oils or any other materials except lubricating oils, from which, by commercial distillation there can be produced, as distillate or residuum, products having a viscosity of more than 60 seconds Saybolt Universal at 210° F. with a viscosity index of over 60, and lubricating oils from which by commercial distillation there can be produced, as distillate or residuum, 10% or more of products having a viscosity of more than 60 seconds Saybolt Universal at 210° F. with a viscosity index of over 60, and not conforming to the definition of A | L. ton   | 5011.07            | C               |
| C—Other crude oil (including topped crude, long residuum) not conforming to the above definitions A and B   |          |                    |                 |

| E—High octane aviation motor fuels, hydrocarbons, and hydrocarbon mixtures boiling between 75° F. and 350° F. A. S. T. M. which with the addition of tetraethyl lead up to a total content of 3 cc per gallon will exceed 87 octane number by the A. S. T. M. Knock Test Method   | Bbls.    | 5016.98            | O               |
| F—Medium octane aviation motor fuels of which the total fraction obtained by commercial distillation having an A. S. T. M. end point of 300° F. or lower will have, with the addition of 3 cc tetraethyl lead per gallon, an octane number by the A. S. T. M. Knock Test Method of 80 or more, and not conforming to the definition of E  | Bbls.    | 5017.07            | P               |
| G—Other motor fuel and gasoline from which by commercial distillation there can be separated more than 3% of a total fraction having an A. S. T. M. end point of 300° F. which will have, with the addition of 3 cc tetraethyl lead per gallon, an octane number by the A. S. T. M. Knock Test Method of 80 or more, and not conforming to the above definitions E, F and G   | Bbls.    | 5017.98            | P               |
| H—Other Motor Fuels and gasoline not conforming to the above definitions E, F and G   |          |                    |                 |

(a) The column headed "Gen. Lic. Group" has reference to the general license country groups set forth in § 802.3 (a) of this subchapter. When numbers appear instead of a letter, the commodity may be exported under general license only to the destinations indicated by those numbers in § 802.2 (a).

(b) Where an asterisk precedes a general license country group letter, the particular commodity may be exported under general license to the group so indicated only up to July 6, 1942; and from and after July 6, 1942, may be exported under general license only to general license country group C.

(c) The abbreviation "n. e. s." in the above schedule means "not elsewhere specified".

§ 801.3 *Revocation of licenses.* All export licenses are subject to revocation without notice.

§ 801.4 *Return of revoked or expired licenses.* Export licenses which have been revoked or which have expired must be returned immediately to the Export Control Branch.

§ 801.5 *Transfer of licenses.* Export licenses shall not be transferred except by a written authorization of the Chief of the Export Control Branch.

§ 801.6 *Amendments to licenses.* No amendments may be made to export licenses except by the Export Control Branch, or by collectors of customs or postmasters acting under the specific instructions of the Chief of the Export Control Branch.

§ 801.7 *Presentation for export.* No articles, materials, or supplies the exportation of which is prohibited or curtailed pursuant to Section 6 of the Act of July 2, 1940, 54 Stat. 714, as amended, shall be loaded or carried onto an exporting carrier for export by water or by air or presented to such an exporting carrier for loading or presented to the collector of customs for inspection and clearance for exportation until an original license therefor, or such other document as may be authorized in these regulations, has been presented to the collector of customs at the port at which the controlled item is to be so loaded, carried, or presented. No such controlled

item shall be mailed for exportation until an original license, or such other document as may be authorized in these regulations, has been presented to the postmaster at the post office where the controlled item is to be mailed. If the controlled item is to be exported by any means of export other than by water, air, or mail, such license or other document need not be presented to the collector of customs prior to loading, carrying onto, or presentation to, the exporting carrier, but must be presented to the collector of customs at the port of exit prior to inspection by the customs inspectors or other export inspection officials at that port, and at all events prior to exportation. Upon specific authorization to collector of customs or postmaster by the Chief of the Export Control Branch, the presentation of a license may be waived. The provisions of this section do not apply to exportations made pursuant to general licenses nor to exportations of technical data.

§ 801.8 *Price.* Articles, materials and supplies may not be exported except in accordance with the provisions of the Maximum Export Price Regulation issued by the Office of Price Administration, as it may hereafter be amended.

§ 801.9 *Arms, ammunition and implements of war, helium and tinplate scrap.* Regulations promulgated by the Secretary of State on June 2, 1942, 7 F.R. 4216 et seq., shall continue to govern the exportation of arms, ammunition and implements of war, helium and tinplate scrap, except that an export license shall not be issued when in any case it shall have been determined by the Chief of the Export Control Branch that the proposed exportation would be detrimental to the prosecution of the war or contrary to the interest of national defense.

(b) When any commodity is shipped or taken out of the United States under any type of general license, the exporter shall state on the export declaration, when such document is required to be presented to the collector of customs or postmaster, the name of the ultimate consignee, the commodity description, the country of destination, and the general license number. The export declaration shall be presented to the collector of customs or postmaster prior to the taking out or prior to loading for exportation at the port of exit or prior to mailing. In the case of shipments by rail or motor transport, the export declaration must be presented prior to inspection by the customs officials at the point of exit.

In addition, whenever an exportation under general license is made by mail, the general license number must be endorsed on the address side of the wrapper of the parcel.

(b) When a commodity is placed under general license to a particular country group, it may be shipped to any country in that group subject to existing regulations.

§ 802.4 *Re-exportation from country of destination.* No exportation may be made under any type of general license with the knowledge or intention that the articles, materials or supplies so exported are to be re-exported from the country of destination, unless the re-exportation has been authorized by the Export Control Branch.

§ 802.5 *Consignee control under general license.* (a) General licenses may be revoked or suspended as to any person in any destination.

(b) Shipment under an applicable general license may be made to any consignee in the country of destination except:

(1) To any person as to whom the general license has been revoked or suspended; or

(2) To any person on "The Proclaimed List"; or

(3) To a member of the immediate family or an agent or representative of any person named on "The Proclaimed List"; or

(4) To any person when by reason of the sale, purchase or any service connected with the exportation, a commission, fee, remuneration or other benefit accrues to any person named on "The Proclaimed List".

§ 802.6 *Consignor control under general license.* General licenses may be revoked and their use suspended as to

any person within or without the United States by any order issued pursuant to the provisions of Part 807 of this subchapter.

§ 802.7 *General licenses issued.* (a) General licenses are hereby issued permitting exportation of the commodities to the destinations designated under the column "General License Group" in the Schedules set forth in § 801.2 of this subchapter.

(b) Where the word "none" appears in the column "General License Group" opposite a commodity, no general license for such commodity is in effect, except as hereinafter provided.

§ 802.8 *Exports to the United States Government.* A general license, designated GUS, is hereby issued permitting exportation of all articles and materials to any of the following consignees:

(a) The United States Government or any agency thereof: *Provided*, Such articles are intended for official use;

(b) Representatives of the United States or members of the United States armed forces: *Provided*, That such articles are shipped in quantities sufficient solely for official use or for the personal use of the consignee and his immediate family.

§ 802.9 *General intransit licenses.*

(a) General Intransit Licenses are hereby issued permitting exportation of all articles and materials, except as provided in paragraphs (c) and (d) of this section, originating in a designated foreign country and passing through the United States or any place subject to the jurisdiction of the United States in transit to a designated foreign destination, as specified in paragraph (b) of this section.

(b) (1) The following are the designated countries of origin and destination for which general intransit licenses are issued. The general license designations set forth below must be used in the same manner as general license numbers as provided in § 802.2 (b):

(c) The use of General Intransit License GIT-Y/Z is subject to the following regulations: (1) Each shipment must be accompanied by a Canadian Export Permit or by a British Imperial License, specifying the nature of the shipment and naming the ultimate consignee in the country of destination.

(2) Canadian Export Permits and British Imperial Export Licenses shall be surrendered to collectors of customs at the last port of exit from the United States.

(3) If the shipment is not accompanied by a foreign export license or per-

mit, as provided above, an individual export license, from the Export Control Branch, must be obtained.

(d) Intransit shipments involving all forms of the commodities hereafter listed in this paragraph require individual export licenses except when shipments thereof are proceeding under General Intransit License GIT-A/A, from any part of the British Empire to any other part of the British Empire, or when proceeding under bond from Mexico through the United States to another part of Mexico:

- (b) General licenses are hereby issued permitting exportation to destinations in general license country group K, as set forth in paragraph 802.3 (a), of all items excepted from paragraph (a) of this section when the net value of a single shipment of such items does not exceed \$1, provided that the following items may not be exported under these general licenses in any amount:
- Atropine.  
Belladonna.  
Caffein.  
Digitalis Seeds.  
Hempseeds.  
Homatropine.  
Hyoscine (Scopolamine).  
Hyoscyamus (henbane).
- (c) General licenses are hereby issued permitting the exportation to destinations in general license country group C, as set forth in § 802.3 (a), of all medicinals, pharmaceuticals, and medicinal chemicals, regardless of value, except the following:
- Aconite.  
Agar.  
Atropine.  
Belladonna.  
Cacodylic acid.  
Caffein.  
Cinchona bark.  
Digitalis seeds.  
Homatropine.
- Hyoscine (Scopolamine).  
Hyoscyamus (Henbane).  
Quinine—except preparations less than 10% in value of quinine sulphate or its equivalent. The excepted class may be exported under General License to destinations in Group C.  
Theobromine.  
Theophylline.  
Vitamin A—except when contained in capsules, ampules and similar dosage forms.
- (d) General licenses are hereby issued permitting exportation to destinations in general license country group K, as set forth in § 802.3 (a), of all medicinals, pharmaceuticals, and chemicals usable solely for medicinal purposes, except those listed in paragraph (a) of this section, where, in a single shipment, the net value of such articles and materials classified under a single Department of Commerce Schedule B or F number does not exceed \$100: *Provided, however*, That any medicinal article or material listed below (including its forms, conversions, and derivatives, and whether or not contained in a preparation) may not be exported under these general licenses to destinations in general license country group K in an amount exceeding \$25 net value:
- Arnica.  
Bromides and bromates in medicinal preparations.

Cassia oil.  
Colchicum.  
Lecithin.  
Senna.  
Stramonium.  
Vitamins, viosterols, and vitamin preparations except those specified in paragraph (a) of this section.
- (e) The above general licenses or any other general licenses which authorize shipments of articles and materials not exceeding specified values are designed to permit the exportation of bona fide single shipments, within the designated maxima, of such articles and materials. They may not be used under any circumstances for the purpose of effecting the exportation of such articles and materials in amounts in excess of the specified maximum values which would otherwise require individual licenses, whether this is sought to be accomplished by splitting an order into two or more shipments; or by securing a large number of similar, separate orders; or by any other device designed to evade the requirement of an individual license.
- (f) The provisions of this section shall not be construed as limiting the use of any other general licenses.
- § 802.11 *Personal baggage.* General licenses are hereby issued permitting exportation to all destinations of the following classes of articles when shipped in the passenger's baggage solely for his own or his immediate family's use and for noncommercial purposes:
- (a) Household articles, including furniture, books, radios, decorations, and other household furnishings.

(b) Personal effects, including clothing, toilet articles, souvenirs, articles of personal adornment and similar articles.

(d) Other small consumer goods, except photographic film which may be exported under general license only in accordance with the provisions of § 802.12.

(e) Passenger automobiles when the personal property of persons departing from this country and not being exported for purposes of resale. The applicant must file with Collector of Customs an affidavit certifying exportation is not for resale.

§ 802.12 *Photographic film.* (a) General licenses are hereby issued permitting exportation to destinations designated by numbers 1 through 99 in § 802.2 (a), of all photographic film, except unexposed or raw photographic film, dry plates, unexposed photographic paper, exposed but undeveloped motion picture films, and still films or plates: *Provided*, That the requirements of the Office of Censorship have been satisfied.

(b) General licenses are hereby issued permitting exportation of commercial and non-commercial exposed but undeveloped motion picture and still films or plates to Canada and Newfoundland. If, upon presentation of such articles for export to destinations other than Canada and Newfoundland, they are developed by the Collectors of Customs or by the Censors in order to examine them for licensing purposes, they shall then be subject to the provisions of paragraph (a) of this section. If not developed, the articles will be returned to the sender with a notification that they must be developed before they will be considered for export.

(c) General licenses are hereby issued permitting exportation of unexposed or raw photographic film, dry plates, and unexposed photographic paper to Canada and Newfoundland.

(d) The provisions of this section shall not apply to shipments of photographic film under general license GUS.

§ 802.13 *Ship and plane stores, supplies and equipment.* (a) General licenses are hereby issued permitting exportation of certain ship stores, supplies and equipment to destinations numbered 1 through 99, as set forth in § 802.2 (a), subject to the following restrictions:

(1) When exportation is made on freight or passenger vessels operating under the jurisdiction of countries designated by numbers 1 through 81, 88, 89, 90, 91, 96 and 99 in § 802.2 (a), these general licenses authorize the exportation of fuel, ordinary ship stores, sea stores, and supplies for use or consumption on board such vessels during the outgoing voyage and any immediate return voyage scheduled, and also of equipment and spare parts intended for permanent use on such vessels when necessary for their proper operation.

(2) When exportation is made on vessels operating under the jurisdiction of

countries other than those listed in subparagraph (1), these general licenses authorize exportation of only sufficient fuel, stores and supplies, necessary for use or consumption on the outgoing voyage of such vessels, and also of equipment and spare parts required for emergency repairs to enable such vessels to proceed safely to their destinations.

(b) General licenses are hereby issued permitting exportation in planes departing from the United States for destinations numbered 1 through 99, as set forth in § 802.2 (a), of ordinary plane stores and supplies for use or consumption during the outgoing trip of such planes and any immediate return trip scheduled, and also of equipment and spare parts when necessary for the proper operation of such planes.

§ 802.14 *Metal drums and containers.* (a) General licenses are hereby issued permitting exportation to destinations designated by numbers 1 through 85 in § 802.2 (a) of metal drums and containers having a capacity of 30 gallons or less, when filled with commodities the exportation of which has been authorized by license: *Provided*, That the drums and containers are of a type reasonably suited for the exportation of such commodities.

(b) General licenses are hereby issued permitting exportation to Canada, Great Britain and Northern Ireland, Newfoundland, Greenland, Iceland and the U. S. S. R. of all metal drums and containers, filled or unfilled, regardless of capacity.

(c) General licenses are hereby issued permitting exportation to destinations designated by numbers 1 through 85 in § 802.2 (a) of metal drums and containers, regardless of capacity, when filled with chemicals the exportation of which has been authorized by license: *Provided*, That the drums and containers are of a type reasonably suited for that purpose.

(d) General licenses are hereby issued permitting the exportation to Canada, Great Britain and Northern Ireland, Newfoundland, Greenland, Iceland and the U. S. S. R., of filled or unfilled metal cylinders designed to hold gas, regardless of size or capacity.

#### PART 803—UNLIMITED LICENSES

Sec.

803.1 General provisions.

803.2 Commodities and countries of destination.

*AUTHORITY:* §§ 803.1 and 803.2, issued under sec. 6, 54 Stat. 714, Public Law 75, 77th Cong., Act of June 30, 1942, 77th Cong.; 50 U.S.C. Sup. 99; Order No. 3, Delegations of Authority Nos. 25 and 26, Part 800, *supra*.

§ 803.1 *General provisions.* (a) Unlimited licenses are hereby issued to certain foreign purchasing agencies permitting the exportation of certain commodities to specific destinations as provided in § 803.2, subject to the following conditions:

(1) The unlimited license may not be used except by written authorization of the licensee.

(2) In lieu of presenting the license, the person authorized to use such license may present a document entitled "Re-

lease Certificate" issued by the licensee, addressed to the Collector of Customs and showing substantially as follows:

- (i) The date of issuance.
- (ii) The name and address of the exporter.
- (iii) That the exporter is the agent of the licensee for the purpose of making the described shipment.
- (iv) The country of destination.
- (v) A description of the material, quantity and value.
- (vi) A reference to the unlimited license against which shipment is made.
- (vii) Date of expiration.
- (viii) Signature of an authorized officer of licensee.

(3) Application for a Release Certificate to use any unlimited license shall be made to the licensee.

(4) Where an article listed in section 803.2 may be shipped under general license to the destination for which an unlimited license is in effect, such article shall be shipped under the general license.

(5) A separate Release Certificate must be presented for each shipment.

§ 803.2 *Commodities and countries of destination.* The unlimited licenses referred to in § 803.1 with the licenses, destinations to which shipments may be made and commodities which may be exported under such licenses are as follows:

(a) Amtorg Trading Corporation (280 Madison Avenue, New York, N. Y.), Destination: U. S. S. R.:

Abrasive, Mfrs.

Abrasive paper & cloth.

Asbestos, Crude & Fiber (other than African chrysolite, African amosite, African blue fiber or Arizona fiber).

Asbestos Mfrs. (other than those containing more than 10% African chrysolite, African amosite, African blue fiber or Arizona fiber).

Carbon Electrodes.

Chemicals:

Acetic acid.

Acetic aldehyde.

Acetic anhydride.

Acrylonitrile.

Alkyd resins.

Aniline.

Arsenic trichloride.

Bromine.

Carbon black.

Casein.

Calcium cyanide.

Chloroacetyl chloride.

Coconut shells & coconut shell char.

Cresylic acid & cresols.

Dibutyl phthalate.

Diethyl phthalate.

Dimenthylamine.

Diphenylamine.

Dipropylphthalate.

Ethylene.

Ethylene chlorhydrine.

Ethylene dibromide.

Iodides & iodates.

Methylamine.

Monochloroacetic acid.

Naphthalene.

Omega chloroacetophenone.

Pentaerythrite.

## Chemicals—Continued.

Phosphates.  
 Rochelle salts.  
 Rotenone.  
 Soda lime.  
 Sodium acetate, anhydrous.  
 Sodium cyanide.  
 Strychnine & salts thereof.  
 Sulphuric acid.  
 Thiodiglycol.

Drugs, Herbs, etc.—Insecticides:  
 Cube root.  
 Derris root.  
 Red squill.

Electrical Machinery & Apparatus:  
 Bulbs, electric light, over 200 watts.  
 Fuse plugs.  
 Mica dial or mica covered compasses.  
 Neon tube electrode sections.  
 Radio mica trimmers.  
 Radio receiving sets, complete.  
 Radio tubes or valves for receiving sets.  
 Radio tube ridges.  
 Radio tube spacers.  
 Rheostats.

Engines—Diesel & Semi-Diesel:  
 Electrical generating sets, powered by Diesel engines.  
 Diesel engines.

Explosives:  
 Blasting gelatin.  
 Commercial explosives, n. e. s.  
 Detonators & blasting caps.  
 Dynamite.  
 Nitrocellulose having a nitrogen content of less than 12%.

Glass & Glass Products:  
 Glass, bullet proof, laminated.

Graphite Manufactures:  
 Graphite electrodes.

Instruments, Precision, for Metal Working Balancing machines.

Iron & Steel—Bars & Rods:  
 Bars, concrete reinforcement bars, including deformed, & twisted bars, nonalloy.  
 Bars, steel, cold finished nonalloy.  
 Rods, wire, nonalloy.

Iron & Steel—Bars & Rods, Steel, Other  
 Bars, steel, not containing alloy.

Iron & Steel—Sheets, Black, of steel, not containing alloy.

Iron & Steel—Sheets, Galvanized, steel, nonalloy.

Iron & Steel—Strip, iron & steel, not containing alloy, cold rolled.

Iron & Steel—Strip, iron & steel, not containing alloy, hot rolled.

Iron & Steel Mfrs.—Railway Tracks.  
 Material:  
 Rails, 60 lbs. & over per yd. nonalloy.  
 Rails, less than 60 lbs. per yd., nonalloy.  
 Rails, relaying, nonalloy.

Iron & Steel Mfrs.—Structural Products:  
 Shapes, structural, not fabricated, incl. heavy, light and bar size structural shapes, nonalloy.

Iron & Steel Mfrs.—Wire:  
 Wire (on spools or in coils, not attached to cards) nonalloy.  
 Wire, barbed, nonalloy.  
 Wire, fencing, woven, nonalloy.  
 Wire, twisted, nonalloy.

Oils & Fats—Animal, Fish & Marine Mammal:  
 Edible.  
 Fatty acids.

Oils & Fats—Vegetable (Edible).

## Petroleum Products &amp; Tetraethyl Lead:

Crude oils.  
 Lubricants.  
 Motor fuels & blending agents.  
 Petroleum coke.  
 Miscellaneous.

Valves:  
 Valves or valve bodies.

Wood pulp:  
 Chemical wood pulps.

(b) Belgian Congo Purchasing Commission (630 Fifth Avenue, New York, N. Y.). Destination: Belgian Congo:

Abrasives & Abrasive Mfrs.  
 Chemicals:  
 Borax.  
 Boric acid.  
 Borax glass.  
 Lithopone.  
 Phosphoric acid (ortho-, pyro-, & meta-).  
 Red lead, dry.  
 Red lead, in oil.  
 Zinc oxide including leaded zinc oxide.  
 Zinc sulfide.

Instruments, Precision, for Metal Working Gauges.

Iron & Steel—Ferro-alloys.

Iron & Steel:  
 Bars & rods.  
 Bars, & rods, steel, other.  
 Billets.  
 Blooms.  
 Band & Scroll:  
 Baling bands.  
 Hoop.  
 Ingots.  
 Sheets, black:  
 Black plate.  
 Sheets, galvanized.  
 Sheet Bars & Tin-Plate Bars.  
 Skelp.  
 Slabs.  
 Strip.

Iron & Steel Mfrs.—Castings & Forgings.  
 Castings.  
 Forgings.  
 Railway axles.  
 Railway wheels.

Iron & Steel Mfrs.—Nails & Bolts.  
 Bolts, machine screws, nuts, rivets, washers (except railroad).  
 Horseshoe nails.  
 Nails & staples, other.  
 Tacks.  
 Wire nails.

Iron & Steel Mfrs.—Railway Track Material.  
 Railroad spikes.  
 Rails.  
 Rail tieplates & splice bars.

Iron & Steel Mfrs.—Structural Products.  
 Piling, steel.  
 Shapes, structural.  
 Tanks, storage, etc.

Iron & Steel Mfrs.—Tools:  
 Augers, bits, gimlets, gimlet bits, & counter sinks; wood-working.  
 Automotive wrenches & parts.  
 Axes.  
 Cross-cut, hand, back & other saws, & parts not elsewhere specified.

Files & rasps:  
 Less than 7 inches in length.  
 7 inches or more in length.

Hammers & hatchets.  
 Hand hoes, rakes & forks.  
 Hay & manure forks.  
 Machetes.

## Iron &amp; Steel Mfrs.—Tools—Continued.

Other wrenches & parts (except automotive).  
 Planes, chisels, gouges, & other cutting tools & parts.  
 Shovels, spades, scoops & drainage tools.  
 Vises.  
 Wood screws (of iron or steel only).

Iron & Steel Mfrs.—Tubular Products:  
 Pipe.  
 Tubes.

Iron & Steel Mfrs.—Wire:  
 Wire.  
 Wire bale ties.  
 Wire, barbed.  
 Wire fencing, woven.  
 Wire rope & cable.

Iron & Steel Mfrs.—Misc.:  
 Drums, metal & containers, for oil, gas, solids & liquids, filled or unfilled.  
 Drums, & containers, other.  
 Fence posts.

Oils & Fats—Animal, Fish & Marine Mammal—(including only):  
 Butter.  
 Lard.

Paper & Paper Mfrs.—All forms except:  
 Cellophane.  
 Kraft wrapping paper.  
 Newspaper, baled (old & overissue).  
 Newspaper, overissue.  
 Newspaper, other overissue & old newspaper.  
 Paper, waste paper.  
 Vulcanized fiber sheets, strips, rods & tubes.

Petroleum Products.

(c) British Purchasing Commission (910 G Street, N. W., Washington, D. C.). Destination: Egypt and all countries in the British Empire except Canada, Great Britain & Northern Ireland:

Abrasives & Abrasive Mfrs. (except diamond grinding wheels).  
 Aircraft—Parts, Equipment & Accessories. (Other than those listed in Proclamation 2549, 7 F.R. 2769 et seq.)

Bismuth.

Brass and Bronze (which may be exported under unlimited license to all countries in the British Empire, including Great Britain and Northern Ireland, and to Egypt.)

Chemicals:  
 Bismuth salts & compounds.  
 Casein.  
 Casein glue.  
 Copper salts & compounds.  
 Nickel salts & compounds.  
 Petrolatum & Petroleum jelly.

Copper.

Cork Products:  
 Gaskets in shipments under \$50 in value (which may be exported under this unlimited license to all countries in the British Empire, including Canada, Great Britain and Northern Ireland, and to Egypt).

Electrical Machinery & Apparatus:  
 Radio mica condensers or capacitors.  
 Radio mica dial or mica covered compasses.  
 Radio mica trimmers.

## PART 804—INDIVIDUAL LICENSES

## Sec.

- 804.1 General provisions.
- 804.2 Applications for licenses.
- 804.3 Expired, revoked and unused licenses.
- 804.4 Weight and volume tolerance.
- 804.5 Port of exit.
- 804.6 Duplicate licenses.
- 804.7 Special provisions concerning applications to export certain commodities.
- 804.8 Certificates of necessity.
- 804.9 Appeals from rejections of applications.

**AUTHORITY:** §§ 804.1 to 804.9, inclusive, issued under sec. 6, 54 Stat. 714, Public Law 75, 77th Cong., Act of June 30, 1942, 77th Cong.; 50 U.S.C. Sup. 99; Order No. 3, Delegations of Authority Nos. 25 and 26, Part 800, *supra*.

§ 804.1 *General provisions.* (a) The articles, materials and supplies enumerated in § 801.2 of this subchapter may be exported only pursuant to individual licenses issued by the Export Control Branch, unless exportation is authorized by general, unlimited, technical data, or other special form of license.

(b) Application for individual license shall be made on the form prescribed by the Export Control Branch. All terms, conditions, provisions and instructions contained in the form are hereby incorporated as a part of the regulations in this subchapter.

(c) The return post card furnished with each application must be filled in and submitted to the Export Control Branch with the application.

(d) When countersigned and bearing the official seal of the Board of Economic Warfare, the application becomes a license.

(e) When a license is issued, the case number assigned by the Export Control Branch becomes the license number.

(f) An individual license is valid for six months unless it is otherwise stated on the license or unless sooner revoked.

§ 804.2 *Applications for licenses.* (a) License applications may be made by any person subject to the jurisdiction of the United States, who is in fact the exporter, or by his duly authorized agent, except as specified in paragraph (b) of this section. An applicant not subject to the jurisdiction of the United States must show that unusual hardship would result from a refusal to consider the application.

(b) (1) Applications for licenses to export unused metal-working machinery may be filed only by the manufacturer of such machinery.

(2) Applications for licenses to export farm equipment and machinery classified under Department of Commerce Schedule B numbers 7143, 7365, 7368, 7800-7870, 7879-7899, and 7975, may be filed only by the manufacturer of such machinery: *Provided*, That the manufacturer may submit application on behalf of a dealer, broker, etc.

(c) A separate and complete application must be submitted for each commodity to each consignee in each country of destination.

(d) Where partial or periodic shipments of an identical commodity are being made by the applicant to the same consignee in a foreign country, an application may be filed covering the entire quantity of goods to be so exported, and if a license is issued, partial shipments may be made from time to time during the life of the license.

(e) A second application covering the same proposed exportation must not be submitted pending action on the first application.

(f) All information pertaining to an application for an export license must be attached to the license application at the time it is originally filed. Additional information concerning the application for the license will not be attached after it has been received by the Export Control Branch.

§ 804.3 *Expired, revoked and unused licenses.* (a) If a license expires before complete shipment has been made, the licensee shall return the expired license to the Export Control Branch but may make a new application for the unshipped balance.

(b) If the license is revoked, expires or if shipment is not to be made, the license shall be returned immediately to the Export Control Branch, with a covering letter explaining the reason for such return. If the license is not in his possession, the licensee shall notify the Export Control Branch.

§ 804.4 *Weight and volume tolerance.* (a) For all articles and materials requiring export license, a ten percent (10%) tolerance by weight or volume over the amount specified on the license is allowed, except as noted below:

|   |                |
|---|----------------|
| Pharmaceuticals and finished drugs..... | 1 percent.     |
| Platinum and platinum group metals..... | 1 percent.     |
| Industrial diamonds.....                | Nearest carat. |

|                            |                         |
|----------------------------|-------------------------|
| Radium and radium salts... | Nearest 100 milligrams. |
| Uranium and uranium salts. | Nearest 100 milligrams. |

(b) This tolerance is allowed only when the unit of quantity called for on the license application is in terms of weight or volume and shall not be allowed where the unit of quantity called for is in terms of number of units.

(c) In all cases the tolerance shall be allowed on the basis of the actual quantity stated on the license.

(d) Whenever one or more partial shipments of the licensed material have been made, the license remains valid only for the unshipped balance of the licensed material, plus 10% of such balance; but this provision will not apply in the case of articles listed under paragraph (a) of this section.

(e) A tolerance up to ten percent (10%) in value over the value specified on the license is allowed on shipments where there is a proportionate increase in quantity.

§ 804.5 *Port of exit.* (a) Merchandise which leaves the United States at one frontier port, crosses adjacent foreign territory, and reenters the United States at another frontier port before final exportation to a foreign country, will be treated as an export at the last port of exit from the United States.

(b) A license may be used for exportation from any port subject to the jurisdiction of the United States unless the Chief of the Export Control Branch shall otherwise direct.

§ 804.6 *Duplicate licenses.* Where a license is lost or destroyed, a duplicate of such license may be obtained by the licensee in accordance with the following procedure:

(a) Another application identical in all respects to the former and marked "Duplicate" must be submitted.

(b) An affidavit must be attached to the new application stating:

(1) That the original license has been lost or destroyed.

(2) What goods, if any, have been shipped under the original license.

(3) That affiant agrees to return the original license to the Export Control Branch if it is found.

§ 804.7 *Special provisions concerning applications to export certain commodities—(a) Chemicals and medicinals.* All applications for licenses to export chemicals, medicinals, and pharmaceuticals must include in the answer to question 14 of the prescribed form such indication of grade, form, concentration, mixtures or ingredients as may be necessary to identify the commodity accurately, and must state fully how the shipment will be packed.

(b) *Diamonds and tools containing diamonds.* (1) All applications for licenses to export diamonds must include in the answer to question 14 of the prescribed form a statement of the actual carat size of each stone covered by the application.

(2) All applications for licenses to export tools incorporating industrial dia-

monds must include in the answer to question 14 of the prescribed form a statement of the actual carat size of each stone contained in any such tool.

(c) *Containers.* (1) Containers, other than those made of metal, require no license when exported filled.

(2) Metal drums and containers, filled or unfilled, require an individual license except as provided in § 802.14 of this subchapter.

All applications for such licenses must state:

(i) The weight in pounds of the metal drums and containers.

(ii) The number of metal drums and containers.

(iii) The volume contents (in gallons) of the metal drums and containers.

(iv) Whether or not the drums and containers are foreign-owned and sent to this country for filling and return.

(v) Whether or not drums and containers will be returned to this country.

(3) When articles or materials requiring a license for exportation are to be shipped in containers which also require a license, a single application may be filed covering both the container and its contents.

(d) *Metals.* (1) All applications for licenses to export any ferrous or non-ferrous articles or materials (except all ores, concentrates, smelter and refinery residues and unrefined products covered by paragraph (e) of this section), listed under iron, iron and steel, ferro-alloys and non-ferrous metals in the schedules set forth in § 801.2 of this subchapter, except chemicals and refractories, if containing any of the elements listed below, must include a statement of weight in pounds, if amounting to ten or more pounds, of each such element if present in percentages in excess of the minimum indicated below:

|                     |                        |
|---------------------|------------------------|
| 15 percent or more: | 5 percent or more—Con. |
| Copper.             | Chromium.              |
| Lead.               | Cobalt.                |
| Zinc.               | Nickel.                |
| 10 percent or more: | Tin.                   |
| Aluminum.           | Tungsten.              |
| Bismuth.            | Vanadium.              |
| Magnesium.          | Any percent:           |
| Manganese.          | Beryllium.             |
| Mercury.            | Columbium.             |
| Molybdenum.         | Tantalum.              |
| Titanium.           | Uranium.               |
| 5 percent or more:  | Zirconium.             |
| Antimony.           |                        |
| Cadmium.            |                        |

(2) All applications for licenses to export any ferrous or non-ferrous articles or materials covered by subparagraph (1) must contain a statement of the weight of each of the following elements, regardless of amount, in the unit of quantity indicated below:

|                            |                 |
|----------------------------|-----------------|

(e) *Ores, concentrates, etc.* (1) All applications for licenses to export ores, concentrates, smelter and refinery residues or unrefined products (listed in the schedule set forth in § 801.2 of this sub-

chapter under the headings iron, iron and steel, ferro-alloys, and non-ferrous metals, except chemicals and refractories), containing any of the elements listed below, must include a statement of the weight in pounds, if amounting to ten or more pounds, of each such element:

|            |             |
|------------|-------------|
| Aluminum.  | Mercury.    |
| Antimony.  | Molybdenum. |
| Beryllium. | Nickel.     |
| Bismuth.   | Tantalum.   |
| Cadmium.   | Tin.        |
| Chromium.  | Titanium.   |
| Cobalt.    | Tungsten.   |
| Columbium. | Uranium.    |
| Copper.    | Vanadium.   |
| Lead.      | Zinc.       |
| Magnesium. | Zirconium.  |
| Manganese. |             |

(2) All applications for licenses to export the commodities covered by subparagraph (1) must contain a statement of the weight, regardless of amount, in the unit of quantity indicated, of each of the following elements:

|                            |                 |
|----------------------------|-----------------|
| Platinum group metals..... | In troy ounces. |
| Radium.....                | In grams.       |

(f) *Petroleum.* All applications for licenses to export crude oil must contain a statement of the A. P. I. gravity of all such oil.

(g) *Rubber and manufactures.* All applications for licenses to export rubber or rubber goods must contain a statement of the crude rubber content of the articles or materials included in the applications.

(h) *Steel products.* (1) All applications for licenses to export any steel products must state whether the steel is "stainless steel", "alloy steel other than stainless", or "not containing alloy". For purposes of this paragraph, these categories are defined as follows:

(i) *Stainless steel:* Includes all steel (other than tool steels) containing 9 percent or more of chromium, with or without other alloys, or a combined content of 18 percent or more of chromium and other alloys.

(ii) *Alloy steel other than stainless:* Includes only steel where the minimum of the range specified in any of the elements named exceeds the following percentages:

|                       |  |
|-----------------------|--|
| Over 0.10.....        | Molybdenum.                                      |
| Over 0.30.....        | Chromium.  |
| Over 0.40.....        | Nickel.  |
| Over 0.50.....        | Copper, silicon.                                 |
| Over 1.65.....        | Manganese.                                       |
| Over any percent..... | Cobalt, titanium, tungsten, vanadium, zirconium. |

(2) Separate applications for licenses to export any steel products are required for each of the three following categories and for each of the various steel products, even though the same Department of Commerce Schedule B commodity number is applicable to all three categories:

- Not containing alloy
- Stainless steel (includes stainless iron)
- Alloy steel other than stainless

(i) *New typewriters.* All applications for licenses to export new typewriters to all countries except the other American Republics must be accompanied by an application for a "Permit for Transfer of New Typewriters for Export" on the prescribed War Production Board form.

(j) *Bunker fuel.* All applications for licenses to export bunker fuel necessary for return trips to the United States of vessels not operating under the jurisdiction of countries designated by numbers 1 through 81, 88, 89, 90, 91, 96 and 99 must have the following information attached:

- Name of ship and nationality.
- Type of fuel.
- Gross tonnage.
- Net tonnage.
- Deadweight tonnage.
- Bunker capacity.
- Permanent bunkers.
- Average speed.
- Type of engine.
- Indicated horsepower at average speed.
- Average daily consumption of coal (or oil) at sea.
- Average daily consumption of coal (or oil) in port.

(k) *Farm Machinery.* Applications for licenses to export farm equipment and machinery classified under Department of Commerce Schedule B numbers 7143, 7365, 7368, 7800-7870, 7879-7899, and 7975, must be accompanied by the following form properly filled out:

|  | Value<br>dollars | Value<br>dollars |
|--|------------------|------------------|
| A. Total value of allocated farm equipment exported by applicant during the year 1940 to country named in application.....   |                  |                  |
| B. Total value of exports of allocated farm equipment by applicant under general license to the country named in the application from November 1, 1941 to February 20, 1942..... |                  |                  |
| C. Total value of allocated farm equipment covered by individual licenses granted applicant to the country named on the application from November 1, 1941 to date.....           |                  |                  |
| D. Total value of applications for export of allocated farm equipment to the country named now pending in the Office of Exports including this application.....                  |                  |                  |
| E. Total of items B, C, and D.....   |                  |                  |

The statements above made are to be considered a part of our attached export license application which covers equipment, the production of which is authorized by War Production Board's Order L-26, as amended.

(c) Certificates of Necessity must be obtained from the certifying agencies listed in paragraph (a) of this section. Where such certificates are required by these regulations to be submitted with license applications, the original certifi-

cates must be attached to the applications unless it is impossible to furnish the original documents, in which case a duplicate original, a photostat, or a type-written copy marked "true copy" and signed by the applicant, may be attached:

Provided, That an explanation is given as to why the original has not been furnished.

(d) Applicants for licenses to export allocated materials to the countries listed in paragraph (a) of this section, should furnish all other available information which establishes the essentiality of the need for the shipments covered by the applications.

§ 804.9 Appeals from rejections of applications. (a) Any person whose application for license to export has been rejected may appeal from such rejection: *Provided*, That such appeal shall be based on new information not furnished with the original application.

(b) The appeal shall be addressed to the Export Control Branch, and shall include the following papers securely fastened together:

(1) The rejected application or photostatic copy thereof.

(2) A new application using the prescribed application form covering the identical shipment for which license was rejected.

(3) A letter in duplicate setting forth the reasons why the applicant believes the application should be reconsidered. Additional information which was not presented on the original application and which the applicant feels would justify a reversal of the Board's decision must be submitted. The letter should include a statement of the applicant's past business with the consignee.

(4) An acknowledgement card.

§ 805.4 *Individual license provisions.* (a) Individual licenses permitting shipments to Selected Destinations shall be valid for a calendar quarter year unless otherwise stated thereon. The time of expiration shall be midnight of the 10th day of the first month following the calendar quarter year for which the license is valid.

(b) All applications for licenses to export any articles or materials to any destination listed in § 805.2 must contain the following information in addition to that required by the prescribed form:

(1) A statement of the calendar quarter year in which the exportation is to be made.

(2) A statement as to whether or not a navicert, mailcert, aircert, or export license has ever been issued for the exportation of the article or material covered by the application. If such a document has been issued, the reference number thereof must be stated.

(3) A statement as to whether or not the articles or materials will require transshipment while still subject to control by the applicant, and, if transshipment is required, the reason for the transshipment and the names and addresses of all persons connected with the transaction.

(4) The quantity of the material according to the unit of measure prescribed on the application form, and, in addition, the weight in metric tons or kilograms.

(c) All applications for licenses to export any articles or materials to any destination listed in section 805.2 must be made on a calendar quarter basis. The following provisions are applicable thereto:

(1) All applications for such licenses filed during the first two months of a calendar quarter will be processed by the Export Control Branch for shipment during that quarter. In exceptional cases, the applicant may file his application in advance of the calendar quarter year during which shipment is to be made, but in such cases the applicant must state the reason for filing the application in advance and must specify the calendar quarter year during which shipment is to be made. Licenses thus issued in advance will be valid for shipment only during the quarter for which issued.

(2) Applications for such licenses which are received by the Export Control Branch after the beginning of the third month of a calendar quarter will be processed for shipment during the succeeding quarter, unless the applicant specifically requests on the application that the license be issued for shipment during the current month.

(3) All such applications may be made for shipment at any time during the calendar quarter except as otherwise stated herein.

(d) (1) All licenses issued for shipment to any of the countries set forth in the list in section 805.2 shall bear a number, identified as "Control Number", in addition to the case number assigned by the Export Control Branch. This number will have a letter prefix, such as "B", "P", "F", "S", or "M". In case of exportation by ship or plane, the control number must be noted on the manifest of the ship or plane carrying the cargo licensed for export. In the case of exportation by mail, the Control Number and the License Number must appear on

the outside of each package and on the export declaration.

(2) In the case of exportations to Eire on vessels departing from Canadian ports, the exporter must prepare an extra copy of his export declaration, and must note thereon both license number and the control number. This copy of the export declaration must be verified by the Collector of Customs at the point of exit from the United States.

§ 805.5 *Blockade control permit.* (a) Applications for individual licenses to export articles and materials set forth in paragraph (b) of this section to

|           |                           |

#### PART 806—TECHNICAL DATA

Sec.

806.1 Definition.

806.2 General licenses.

806.3 Blanket licenses.

806.4 Special licenses.

806.5 Unlimited licenses.

806.6 General provisions.

AUTHORITY: §§ 806.1 to 806.6, inclusive, issued under sec. 6, 54 Stat. 714, Public Law 75, 77th Cong., Act of June 30, 1942, 77th Cong.; 50 U.S.C. Sup. 99; Order No. 3, Delegations of Authority Nos. 25 and 26, Part 800, *supra*.

§ 806.1 *Definition.* Technical data is hereby defined as, "Any professional, scientific or technical information or any

model, design, photograph, photographic negative, document, or other article or material, containing a plan, specification, or descriptive or technical information of any kind which can be used or adapted for use in connection with any process, synthesis or operation in the production, manufacture, reconstruction, servicing, repair, or use of any article or material," except that any technical information licensed by the Commissioner of Patents under the authority of Public Law No. 239, 77th Congress, approved August 21, 1941 shall not be included within this definition.

§ 806.2 *General Licenses*—(a) *Definition*. A general license is a license issued by the Chief of the Export Control Branch for which no application is required, available for use by the general public, permitting exportation of specified classes of technical data to specified countries or consignees in accordance with the regulations herein prescribed and those which may be prescribed at the time of issuance of such general license.

(b) *United States Government or agency thereof*. A general license is hereby issued permitting exportation of all technical data to:

(1) United States Government or agency or instrumentality thereof.

(2) Contractors engaged in the construction of United States outlying military or naval bases and supervised by an officer of the United States.

*Provided*, That, any technical data exported to the consignees in subparagraphs (1) and (2) of this paragraph shall be furnished or intended for the use of the United States Government or one of its agencies or instrumentalities.

Any person exporting under this general license shall state in a conspicuous place on the envelope or outside wrapper, "General license No. TD-U. S., or General License No. TD-U. S. Contract," (depending upon whether or not the consignee is the United States government or a contractor thereof) and the name of the country of destination.

(c) *Canada*. A general license is hereby issued permitting exportation to Canada of all technical data except that which has been declared secret or confidential by an authorized agency or officer of the United States and for which a release for export has not been granted. Any person exporting under this general license shall state in a conspicuous place on the envelope or outside wrapper, "General License TD-Canada."

(d) *Newspapers*. A general license is hereby issued permitting the exportation of newspapers, except when exported as a commodity such as over-issue, baled, and old newspapers, to consignees in destinations numbered 1 through 99, as set forth in § 802.2 (a) of this subchapter. A general license number designation is not required to be placed on the wrappers of newspapers exported under this general license.

(e) *Technical, scientific and professional publications*. (1) A general li-

cense is hereby issued permitting exportation of publications devoted in whole or in part to scientific, technical or professional data for which a license has been granted by the Office of Censorship upon recommendation of the Export Control Branch in accordance with the provisions of the Postal Censorship Regulations approved March 17, 1942, 7 F.R. 2171. The designation on the outer wrapper of publications exported under the general license set forth in subparagraph (1) of this paragraph shall be the same as are required by the Postal Censorship Regulations as they may from time to time be amended.

(2) A general license is hereby issued permitting exportation of all publications to destinations 1 through 99, as set forth in § 802.2 (a) of this subchapter, which do not require an Office of Censorship license under the authority of the Postal Censorship Regulations and as to which a specific determination has been made by the Export Control Branch that such publications are not devoted to technical, professional or scientific matters. No such publication may be exported as a commodity, such as mixed books, over-issue magazines and No. 1 heavy books and magazines, under this general license.

(f) *Regulations applicable to General licenses*. (1) Any person making an exportation of technical data under the general licenses set forth in § 806.2 (c) shall place within the envelope, wrapper, or container of each export shipment a certificate signed by the person making the export, which certificate, except as provided in subparagraph (2) of this paragraph, shall contain the following statement: "This shipment contains no technical data which is known by me to have been declared secret or confidential by any officer or agency of the United States. Diligence has been exercised in an effort to learn of any such declaration of secrecy or confidence."

(2) If any shipment made under the general licenses contained in § 806.2 (c) contains any technical data which has been declared secret or confidential but which has been released for export, the person making the exportation shall enclose within such shipment properly authenticated or certified evidence of the release for export. For the purposes of this regulation, photostatic copies or other authentic facsimiles of the official letters of release from the appropriate government officer or department is acceptable evidence of the fact of the release above-mentioned.

(3) It shall be a violation of this regulation to make any exportation under these general licenses with the knowledge or intention that the technical data is to be reexported from the country of destination.

(4) A general license may be revoked or suspended at any time as to any consignee in any destination.

(5) A general license may be revoked as to any person within or without the United States exporting technical data and the privilege of using such license

may be denied as to any such persons in the manner provided in Part 807 of this subchapter.

§ 806.3 *Blanket licenses*—(a) *Definitions*. A blanket license is one issued to particular persons authorizing exportation of routine technical data including installation, operating, servicing, repair or processing instructions and technical data concerning minor changes or alterations in the installation, operation, servicing or repairing of machinery or equipment now in service in the country of destination or in currently used processes therein.

(b) *Technical data excepted*. Technical data exported under blanket license shall not include any information concerning United States military or naval units, shipping schedules or other similar information as set forth in the following documents as they may from time to time be amended:

United States Postal Censorship Regulations.

United States Radio Telephone Censorship Regulations.

United States Cable and Radio Censorship Regulations.

War Department document entitled, "Statement of War Department policy regarding Dissemination and Publication of Information Concerning Contracts, Production Site Locations, etc."

Where the exporter has any reason to believe that any information falls within the categories mentioned, the proposed shipment of material to be exported shall, prior to exportation, be transmitted to the Export Control Branch for examination and approval.

(c) *Technical data requiring specific authorization*. Nonroutine technical data shall not be exported under blanket license unless specifically authorized by the Export Control Branch. Nonroutine technical data shall include but not by way of limitation the following:

(1) Patent applications, amendments thereto and abstracts or other papers pertaining directly to such applications.

(2) Research, laboratory, progress, testing or experimental reports.

(3) Secret, confidential, or restricted information, whether so regarded by the licensee or so declared by an officer or agency of the U. S. Government.

(4) Technical data pertaining to articles or materials designed or intended for military use except such articles, materials, or equipment as may conform to widely known commercial practice.

(5) Technical data pertaining to any articles or materials whatsoever (except for widely known commercial designs) being made for the United States Government or to the specifications of the U. S. Government.

(6) Technical data pertaining to articles or materials to be used in connection with any new developments, projects, or installations.

§ 806.4 *Special licenses*—(a) *Definition*. A special license is one issued to a particular person permitting exportation

to specified consignees of nonroutine technical data as set forth in § 806.3 (c).

(b) *Inspection required.* One or more shipments of nonroutine technical data from one consignor to one consignee may be made under a special license but in each instance, the material to be exported shall first be transmitted to the Technical Data Division of the Export Control Branch for inspection and approval in accordance with the procedure specified in the special license.

(c) *Procedure in lieu of inspection.* Where material is too bulky to transmit to this office for examination or by reason of time requirements or extreme urgency it is impossible or impractical to transmit material to this office for examination prior to shipment under a special license, the licensee may be authorized to export such material without prior examination by the Export Control Branch, but in each such case, a covering letter shall be submitted and such letter shall contain a complete statement of the reasons for the nonsubmission of the material and an accurate descriptive listing of all material to be exported.

§ 806.5 *Unlimited licenses*—(a) *Definition.* An unlimited license is one permitting the exportation of catalogues, sales promotional material and other similar type technical data except that it shall not be used to export magazines or periodical types of publications or technical data for which a blanket or special license must be used.

(b) *Application requirements.* Application for unlimited catalogue license shall be made on the prescribed form (currently OE Form No. 16-c) and shall be accompanied by an expert list in triplicate, naming specifically the items desired to be exported and including copies of each such item.

§ 806.6 *General provisions*—(a) *Regulations governing exportations.* Exports of material under blanket, special and unlimited licenses shall be made in accordance with the regulations stated in such licenses.

(b) *Application requirements for blanket and special licenses.* Applications for blanket and special licenses covering proposed exportations from one consignor to one consignee shall be filed in triplicate on the prescribed form (currently AEC Form No. 16).

Each application shall be supported by a covering letter amplifying the information given in the application form and setting forth such other facts as may be required to completely reveal the relationship existing between the applicant and the consignee and the type of information to be exported. The covering letter shall state:

(1) Generally what need exists for the license.

(2) Whether the technical information is to be exported for general information purposes only or for specific application to a specific situation.

(3) Whether the information is to be used in connection with any new installations, developments, or projects.

(4) Whether the technical information is required for the National Defense, public health, or safety of the country of destination.

(5) Whether the information is required by public service corporations.

(6) Whether the technical data is to be used in connection with any military, naval, or other installation which will tend to aid in the prosecution of the war.

(7) Whether the technical data will be used to produce and export needed material to the United States or to one of the United Nations.

(8) Whether the technical data will be used in the production of any material that is to be exported from the country of destination and if so to what country.

The applicant is not required to indicate whether he is applying for a Blanket or Special License. If the applicant particularly desires that a Blanket License be issued, he shall submit with his application representative samples of all routine material that he may desire to export under Blanket License. This sample material shall be described in complete detail in an exhibit list, filed in triplicate.

(c) *Additional requirements for renewals of blanket and special licenses.* Where a renewal of an existing blanket or special license is applied for, the following information shall be included in the covering letter in addition to that required in paragraph (b) of this section.

(1) Generally what need exists for the extension of the license.

(2) To what extent the expiring license was used, and the approximate figures as to the number of exportations made thereunder.

(3) The special conditions in the form of riders or endorsements appearing on the expiring license.

(4) Whether there is any continued need for such special conditions.

(d) *Additional information required.*

(1) In answer to paragraph (6) of the prescribed application form (currently AEC Form No. 16) in addition to stating the ownership and control of the consignee organization, the applicant shall state the relationship between the applicant and the proposed consignee, subsequent consignee and ultimate user and the business engaged in by the proposed consignee, subsequent consignee and ultimate user.

(2) In answer to paragraph (7) (d) of the prescribed application form (currently AEC Form No. 16), the applicant shall set forth a general description by subject matter of the material to be exported under the license if granted. If the applicant contemplates exporting information so new and novel as to form the subject matter for a patent application, or similar experimental or research data, such facts shall be clearly stated.

(e) *Signing of application.* (1) Applications for license to export "technical data" if applied for by a corporation must be signed by an officer of the cor-

poration or a duly authorized agent of the corporation; if made by a partnership, must be signed by a member of the firm, or its duly authorized agent; if made by an individual, must be signed by the individual or his duly authorized agent.

(2) If the application is signed by an agent, the agent's duly authenticated power of attorney and agency must be filed with the Export Control Branch.

(f) *Statement of consignee.* (1) Except where otherwise herein provided, a statement of the ultimate user meeting fully the conditions of the application oath must be filed. If, on the application the ultimate user named is a person other than the consignee, a statement must be obtained from all consignees as well as the ultimate user. Unrestricted general statements of the consignee or ultimate user accepted heretofore by the Export Control Branch may be incorporated by reference in applications for new or renewal licenses. Statements of consignees or ultimate users are not required in applications for licenses to export patent applications, amendments, and other technical information relating to inventions made in foreign countries, but must be obtained and submitted in support of license applications for the exportation, for informational purposes only, of descriptive material concerning inventions made in the United States.

(2) A statement of the consignee or ultimate user need not be acknowledged before a notary or consular officer if prepared on the letterhead of the organization of the consignee or ultimate user. The statement shall be dated, the place of its execution set forth, and signed by a responsible official of the organization of the consignee or ultimate user who is actually located in the country of destination and whose authority to enforce the conditions of the statement is apparent.

(3) If the applicant finds it impossible or impractical to submit the signed statement of the consignee or ultimate user at the time the application is filed, the application oath may be modified appropriately and an adequate explanation shall be made of the reasons why the statement is not furnished. The applicant shall also advise the steps being taken to obtain the statement.

(g) *Validity of license.* The technical data, blanket, special or unlimited license shall be valid for a period of one year from date of issuance unless otherwise stated on the license.

(h) *Use of license.* The blanket, special or unlimited license, shall be retained in the possession of the licensee until surrendered voluntarily, revoked by the Export Control Branch or until it expires. Such license need not be presented at the time of exportation of any article or material authorized to be exported thereunder, but the number assigned to the license shall be placed on the outside of the envelope or on the outside wrapper of the package containing such material.

(i) *Duplicate applications.* Duplicate applications shall not be filed unless spe-

cifically requested by the Export Control Branch.

(j) *Duplicate licenses.* Duplicate licenses may be issued by the Export Control Branch provided the licensee shows that the original license was lost or destroyed and submits such sworn proof as may be required in each instance.

(k) *Cables, telegrams and radiograms.* Technical data may be exported by cablegram, telegram or radiogram subject to prior examination and approval of the Export Control Branch. The exporter shall place on the message the number of the license to be used, i. e. special, blanket or general.

(l) *Exports by a personal messenger.* Technical data to be taken out of the country by a personal messenger, representative or agent of the licensee or the consignee shall be properly packaged and the license number indicated thereon if the material comes within the provisions of a general or a blanket license. If the export is to be made under a special license, all the material shall be transmitted to the Export Control Branch for examination and approval prior to exportation, except as otherwise provided in § 806.4 (c).

(m) *Export of technical data with commodity.* (1) Whenever detailed drawings and instructions describing assembly, operation, testing, and routine maintenance or repair of machinery, etc., for which a commodity license (currently Form BEW 119) is required, are to be exported with such machinery, etc., only one application (currently Form BEW 119) need be submitted covering both the commodity and the technical data subject to the following conditions:

(i) The technical data shall apply directly to the particular shipment of the commodity.

(ii) The technical data may not include any manufacturing data.

(iii) The technical data to be exported with the commodity shall be shipped in the same container that is to be used for the commodity.

(iv) The technical data to be exported must be listed on the commodity license (currently Form BEW 119).

(2) Whenever the detailed drawings and instructions describing assembly, operation, testing, and routine maintenance or repair, are to be exported separately from the article or material itself, a technical data license shall be applied for on the prescribed technical data license application form (currently AEC Form 16). Where a commodity license (currently Form BEW 119) has been granted the applicant shall state the commodity license number on the application for license to export technical information related thereto.

(n) *Exports to destinations through a foreign country.* Technical data shall not be exported to a territory or possession of the United States through a foreign country except under license. In each such case, an application shall be made on the prescribed form (currently AEC Form No. 16 or in the case of Unlimited Licenses, OE Form No. 16-c) designating the foreign country or countries

through which such technical data will pass.

| 807.11 | Appeal.   |
| 807.12 | Proceedings to be confidential.                         |

**AUTHORITY:** §§ 807.1 to 807.12, inclusive, issued under sec. 6, 54 Stat. 714, Public Law 75, 77th Cong., Act of June 30, 1942, 77th Cong.; 50 U.S.C. Sup. 99; Order No. 3, Delegations of Authority Nos. 25 and 26, Part 800, *supra*.

§ 807.1 *Compliance Commissioners.* The Executive Director of the Board of Economic Warfare will designate one or more persons to act as Compliance Commissioners. Persons attached to the Office of Exports, or to the Export Control Division of the Office of the General Counsel, shall not be qualified to act as Commissioners. Compliance Commissioners shall have the powers and duties set out in §§ 807.2 through 807.12.

§ 807.2 *Orders.* Orders denying the privilege of any person to obtain an export license may be issued in the name and under the authority of the Chief of the Export Control Branch. Such orders shall be effective for such periods of time and on such terms and conditions as may be prescribed by the Chief of the Export Control Branch.

§ 807.3 *Institution of proceedings.* The Chief of the Trade Intelligence Division of the Export Control Branch may, with the approval of the Office of General Counsel, initiate proceedings to deny the privilege of any person to obtain export licenses in any case where the Trade Intelligence Division has reason to believe that such person has violated any provisions of the statutes, proclamations, executive orders or regulations relating to export control.

§ 807.4 *Notification to respondent.* The Chief of the Trade Intelligence Division shall initiate proceedings by transmitting a telegram or registered letter to the person against whom proceedings are brought. The letter or telegram shall set out the specific nature of the violations charged, shall state that denial of respondent's privilege to obtain export licenses is being contemplated and that failure to answer the charges may result in such action being taken, and shall afford an opportunity to answer the charges either in writing, or orally, before a Compliance Commissioner, within a specified period which shall be not less than 10 days nor more than 15 days after the date of transmittal of the letter or telegram. Charges may be amended from time to time upon reasonable notice to the respondent.

§ 807.5 *Default.* If the respondent does not offer to answer the charges

within the prescribed time, the Chief of the Trade Intelligence Division shall submit to the Chief of the Export Control Branch the facts of the case, together with a recommendation for action. Being so advised, the Chief of the Export Control Branch may issue an order denying the privilege of the respondent to obtain export licenses, or take any other appropriate action.

§ 807.6 *Written answer.* If the respondent transmits a written answer, a record shall be prepared containing the charges, the information upon which the charges are based, and the answer. This record shall be transmitted to the Compliance Commissioner.

§ 807.7 *Oral answer.* If the respondent indicates, within the prescribed time, that he desires to present his answer orally, he shall be instructed to appear before a Compliance Commissioner at such time and place as may be designated. The respondent may be represented by counsel. Representatives of the Trade Intelligence Division may question the respondent on any relevant matter: *Provided*, That the respondent shall be informed that he is under no obligation to answer questions. Proceedings before the Compliance Commissioner shall be stenographically transcribed, and the respondent shall be given an opportunity to examine and correct the transcription. A record shall be prepared consisting of the charges, the information upon which such charges are based, and the stenographic transcription, and shall be transmitted to the Compliance Commissioner before whom respondent made his answer.

§ 807.8 *Consolidation.* The opportunity to answer charges may, at the discretion of the Chief of the Trade Intelligence Division, be consolidated with any similar opportunity afforded the respondent by any other government agency with respect to charges upon the same or a related subject matter.

§ 807.9 *Reports and recommendations by Compliance Commissioner.* The Compliance Commissioner shall consider the record and shall prepare a written report which shall consist of his findings of fact, including a finding whether or not a violation has occurred, and his recommendations. If the Commissioner finds that a violation has been committed, his recommendation for action shall be advisory only. The report shall be transmitted to the Chief of the Export Control Branch through the Chief of the Trade Intelligence Division. The latter may likewise attach an advisory recommendation for action.

§ 807.10 *Disposition.* The Chief of the Export Control Branch shall review the record, consider the recommendations of the Compliance Commissioner and the Chief of the Trade Intelligence Division, and determine the disposition of the case. In any case where the Commissioner has found that a violation has been committed, the Chief of the Export Control Branch may issue an order denying the respondent's privilege to obtain export licenses for such periods of time

and on such terms and conditions as he may prescribe, or take any other appropriate action. In any case where the Commissioner has found that no violation has been committed, the Chief of the Export Control Branch shall enter an order dismissing the charges. In all cases, the respondent shall be notified promptly of the action taken. An order denying the privilege to obtain a license shall contain a notification to the respondent of his right to appeal.

§ 807.11 *Appeal.* A respondent may appeal in writing to the Assistant Director in charge of the Office of Exports, whose decision shall be final. Such appeal shall be taken within 10 days after receipt of a suspension order by the respondent. Oral argument will be permitted only upon direction of the Assistant Director. The Assistant Director shall not consider facts or arguments affecting the merits of the policy embodied in the rules or regulations alleged to have been violated. An order denying the privilege to obtain an export license shall remain in effect pending disposition of the appeal, unless otherwise ordered by the Assistant Director.

§ 807.12 *Proceedings to be confidential.* Pending disposition of a case by the Chief of the Export Control Branch, in accordance with §§ 807.5 and 807.10, all proceedings pursuant to this Part shall remain confidential.

Dated June 30, 1942.

## Chapter IX—War Production Board

### Subchapter B—Division of Industry Operations

#### PART 1010—SUSPENSION ORDERS

[Suspension Order S-62]

ALBERT M. GREEN HOSIERY MILLS, INC.

Albert M. Green Hosiery Mills, Inc., Milroy, Pennsylvania, is a former manufacturer of full-fashioned silk hosiery. After restrictions were placed on the use of silk, the Company applied for and received allocations of reserved rayon yarn pursuant to the provisions of Supplementary Order M-37-a. On January 31, 1942, the Company sold and delivered to Samuel Paris, Bradley Beach, New Jersey, approximately 4,100 pounds of reserved rayon which had been allocated to it for its own use by the War Production Board, despite the fact that no authorization therefor had been obtained from the Director of Industry Operations. This transaction was entered into by the Company although it was familiar with the provisions of Supplementary Order M-37-a and knew that this order prohibited the delivery of reserved rayon yarn in the absence of specific authorization by the Director of Industry Operations.

This violation of Supplementary Order M-37-a, dealing with the supply and

distribution of rayon yarn, has impeded and hampered the war effort of the United States by diverting reserved rayon yarn to uses unauthorized by the War Production Board. In view of the foregoing,

*It is hereby ordered:*

§ 1010.62 *Suspension Order S-62.*

(a) Deliveries of material to Albert M. Green Hosiery Mills, Inc., its successors and assigns, shall not be accorded priority over deliveries under any other contract or order and no preference ratings shall be assigned or applied to such deliveries by means of Preference Rating Certificates, Preference Rating Orders, General Preference Orders or any other orders or regulations of the Director of Industry Operations, except as specifically authorized by the Director of Industry Operations.

(b) No allocation shall be made to Albert M. Green Hosiery Mills, Inc., its successors and assigns, of any material the supply or distribution of which is governed by any order of the Director of Industry Operations, except as specifically authorized by the Director of Industry Operations.

(c) Albert M. Green Hosiery Mills, Inc., its successors and assigns, shall not order or accept the delivery of reserved rayon yarn, as the same is defined in Supplementary Order M-37-c, and no person shall sell or deliver to Albert M. Green Hosiery Mills, Inc., its successors and assigns, any such reserved rayon yarn, except as specifically authorized by the Director of Industry Operations.

(d) Nothing contained in this order shall be deemed to relieve Albert M. Green Hosiery Mills, Inc. from any restriction, prohibition, or provision contained in any other order or regulation of the Director of Industry Operations, except insofar as the same may be inconsistent with the provisions hereof.

(e) This order shall take effect on July 2, 1942, and shall expire on October 2, 1942, at which time the restrictions contained in this order shall be of no further effect. (P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

Issued this 30th day of June 1942.

J. S. KNOWLSON,  
Director of Industry Operations.

#### PART 940—RUBBER AND PRODUCTS AND MATERIALS OF WHICH RUBBER IS A COMPONENT

[Amendment 7 to Supplementary Order M-15-b-1 to Restrict Use and Sale of Rubber]

Section 940.5 *Supplementary Order M-15-b-1*<sup>1</sup> is hereby amended as follows:

1. By inserting the following new subparagraph immediately after paragraph (b) (16) thereof:

<sup>1</sup> 7 F.R. 967, 2344, 2449, 2595, 2782, 3389, 4448.

(17) Airplane tires, List 17.

2. By attaching thereto the attached additional list designated List 17.

This order shall take effect as of the date of its issuance.

(P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

Issued this 1st day of July 1942.

J. S. KNOWLSON,  
Director of Industry Operations.

#### LIST 17

*Specifications for the manufacture of airplane tires.* (a) The following specifications shall be followed in the manufacture of airplane tires to fill all purchase orders, including War Orders and orders placed by or for the account of any other department or agency of the Government of the United States.

(b) Compounds used in the manufacture of airplane tire casings shall be prepared in accordance with the specifications set forth in subdivision (a) of List 7, as amended from time to time, attached to Supplementary Order No. M-15-b-1.

(c) Airplane tire casings shall be made only in the sizes hereinafter listed:

(d) The friction and the tread, respectively, of each of the classes of airplane tire casings listed below shall be made from one of the grades of compounds listed in subdivision (a) of said List 7, the appropriate grade of compound to be used for each such respective friction or tread being that hereinbelow specified therefor opposite the description or designation of such class.

**PART 1055—WOOL**

[Conservation Order M-73, as amended for the period August 3, 1942, to January 31, 1943]

Section 1055.1 *Conservation Order M-73*,<sup>1</sup> as amended is hereby amended to read as follows:

§ 1055.1 *Conservation Order M-73—(a) Curtailment of use of wool for non-defense orders for period August 3, 1942, through January 31, 1943.* During the period from August 3, 1942, to January 31, 1943, both dates inclusive, no person shall put into process, or cause to be put into process by others for his account, for nondefense orders, any wool except as follows:

<sup>1</sup> 7 F.R. 4425.

(1) *On worsted system.* Any person having a basic quarterly poundage on the worsted system shall be entitled to put into process, or cause to be put into process by others for his account:

(i) An amount of wool owned by him not in excess of 20% of such basic quarterly poundage, for the manufacture of fabrics or yarns containing not less than 20% wool, wool waste, noils, reprocessed and reused wool, and

(ii) An additional amount of wool owned by him not in excess of 25% of such basic quarterly poundage for the manufacture of fabrics or yarns containing not more than 65% wool and not less than 20% wool, wool waste, noils, reused and reprocessed wool.

(2) *On woolen, cotton, felt or other system.* Any person having a basic quarterly poundage on the woolen, cotton, felt, or any other system shall be entitled to put into process or cause to be put into process by others for his account:

(i) An amount of wool owned by him not in excess of 5% of such basic quarterly poundage, for the manufacture of fabrics or yarns containing not less than 20% wool, wool waste, noils, reused and reprocessed wool, and

(ii) An additional amount of wool owned by him not in excess of 25% of such basic quarterly poundage for the manufacture of fabrics or yarns containing not more than 65% wool and not less than 20% wool, wool waste, noils, reused and reprocessed wool.

*Provided, however,* That notwithstanding the provisions of subparagraphs (1) and (2) above any person who made and sold prior to June 1, 1942, fabrics or yarns containing less than 20% wool, wool waste, noils, reused and reprocessed wool shall be entitled to put into process wool for the manufacture of these same fabrics and yarns within the limitations herein prescribed. Nothing herein contained shall be construed to prohibit the manufacture of fabrics or yarns containing less than 20% of wool waste, noils, reused and reprocessed wool.

(3) *On manufacture of floor covering.* Notwithstanding the provisions of subparagraphs (1) and (2) above, any person whose basic quarterly poundage is calculated from wool put into process for the manufacture of floor covering shall only be entitled to put into process, or cause to be put into process by others for his account:

(i) Amounts of wool of grades 44s and lower, fine carpet wools, mohair, either kid or adult, skin alpaca, coarse alpaca fleece, alpaca seconds, Huarizo, llama, or coarse pieces or locks of alpaca, or llama, owned by such person, for the manufacture of wool products other than floor covering, and

(ii) Amounts of coarse carpet wool for the manufacture of floor covering.

but shall be entitled to put into process a total amount of such wools for the purposes prescribed which is not in excess of 50 per cent of such basic quarterly poundage calculated from the manufacture of floor covering.

(b) *Bonus for use of certain types of wool.* Any person shall, for each pound of mohair, either kid or adult, or wool of grades 44s and lower (including carpet wool), or skin alpaca, coarse alpaca fleece, alpaca seconds, Huarizo, llama, or coarse pieces or locks of alpaca or llama, owned, or hereafter acquired by such person, put into process or cause to be put into process by others for his account, within the limits of paragraph (a) (1) and (2), be entitled to put into process, or caused to be put into process by others for his account:

(1) On the worsted system, an additional two pounds of such material owned or hereafter acquired by him,

(2) On the woolen, cotton or felt system, an additional five pounds of such material owned or hereafter acquired by such person.

(c) *Special provision for manufacture of yarn for use in manipulated fabrics.*

(1) For the purposes of paragraphs (a) (1) and (2) the putting into process of wool for the manufacture of yarns for sale to knitters or weavers to be manufactured by them into fabrics or garments containing not more than 65% wool and not less than 20% wool, wool waste, noils, reused and reprocessed wool, shall be considered as the putting into process of wool for the manufacture of such fabrics: *Provided,* That each sale of such yarn to a knitter or weaver is made only upon the receipt from such knitter or weaver of a certificate in duplicate, signed on behalf of the knitter or weaver placing such order by a duly authorized person in substantially the following form:

The undersigned hereby certifies to his vendor and to the War Production Board that the yarn covered by this purchase order will be used by the undersigned for the manufacture of fabrics or garments containing not more than 65% wool as the term is defined in Conservation Order M-73, and not less than 20% wool, wool waste, noils, reused and reprocessed wool.

and *Provided, further,* That one of the duplicate certificates required for each such sale shall be filed with the War Production Board on or before the 15th day of the month following the month in which such sales were made.

(2) No knitter or weaver furnishing the certificate mentioned in subparagraph (1) of this paragraph for the purchase of yarn shall knit or weave such yarn into fabrics or garments which contain more than 65% wool or less than 20% wool, wool waste, noils, reused and reprocessed wool, or otherwise use or dispose of such yarn.

(d) *Restrictions on use of wool in the manufacture of certain products — (1) Restriction on wool content of blankets for nondefense use.* No person shall manufacture for nondefense order any blanket containing more than 80 per cent of wool, wool waste, noils, or reused and reprocessed wool, in the aggregate, except blankets made solely from used or damaged paper-makers' felts and/or used processing felts.

(2) *Restrictions on use of certain wools in drapery and upholstery fabrics for nondefense use.* No person shall put

into process, or cause to be put into process by others for his account for non-defense order for the manufacture of any drapery or upholstery fabrics any wool other than coarse carpet wool, mohair, either kid or adult, skin alpaca, coarse alpaca fleece, alpaca seconds, Huarizo, llama, or coarse pieces or locks of alpaca or llama.

(3) *Restrictions on use of certain wools in floor coverings.* No person shall put into process, or cause to be put into process by others for his account any wool other than coarse carpet wool for the manufacture of floor covering.

(4) *Restrictions on use of wool in the manufacture of certain uniforms.* All purchase orders placed on or after June 1, 1942, for uniform fabrics containing wool shall be deemed nondefense orders for the purposes of paragraph (a) of this order, regardless of any preference rating assigned thereto, and no preference rating for uniform fabrics containing wool shall be valid for any purpose, notwithstanding the provisions of any rule, regulation or order of the Director of Industry Operations; except that the foregoing provisions of this subparagraph (4) shall be inapplicable in the case of purchase orders bearing preference ratings for the following uniforms, or fabrics therefor:

(i) Uniforms to be delivered to or for the account of any agency of the United States.

(ii) Officers' uniforms, as defined in Preference Rating Order No. P-131, as the same may be amended from time to time.

(iii) Uniforms for members of a Reserve Officers' Training Corps.

(iv) Any other uniform which the Director of Industry Operations may specifically exempt in writing from the provisions of this subparagraph (4).

(e) *General exceptions.* The prohibitions and restrictions of this order shall not apply to any person to the extent that such person puts wool into process for the making of wool products entirely by hand, including the spinning, and weaving of the fabrics.

(f) *Prohibition against sales or deliveries.* No person shall hereafter sell or deliver any material to any person if he knows, or has reason to believe, such material is to be used in violation of this order.

(g) *Limitation of inventories.* No person shall receive delivery of wool or products thereof in the form of raw materials, semi-processed wool materials or finished goods containing wool, in quantities which shall result in an inventory of such material in excess of a minimum practicable working inventory, taking into consideration the limitations placed upon the use of wool by this order: *Provided, however,* That nothing herein contained shall be deemed to restrict the purchase or delivery of any imported wool to the person importing the same either directly or through an agent or to the person to whom such wool may be sold prior to landing in this country.

(h) *Fair distribution of products.* In making sales or deliveries of wool yarn,

fabrics, styles or patterns, no person shall make discriminatory cuts in amounts or quantities in acceptance of orders or deliveries between former customers and new customers who meet such person's regularly established prices and terms, or between former customers, new customers and his own consumption of these products, or any of them.

(i) *Miscellaneous provisions*—(1) *Priorities Regulation No. 1*. This order and all transactions affected thereby are subject to the provisions of Priorities Regulation No. 1 (Part 944), as amended from time to time, except to the extent that any provisions hereof may be inconsistent therewith, in which case the provisions of this order shall govern.

(2) *Appeal*. Any person affected by this order who considers that compliance therewith would work an exceptional and unreasonable hardship upon him, or that it would result in a degree of unemployment which would be unreasonably disproportionate compared with the amount of wool conserved, or that compliance with this order would disrupt or impair a program of conversion from nondefense to defense work, may appeal to the War Production Board on the form provided therefor setting forth the pertinent facts and the reason he considers he is entitled to relief. The Director of Industry Operations may thereupon take such action as he deems appropriate.

(3) *Applicability of order*. The prohibitions and the restrictions contained in this order shall apply to the use of wool put into process on or after August 3, 1942 in all articles hereafter manufactured. Insofar as any other order of the Director of Industry Operations may have the effect of limiting or curtailing to a greater extent than herein provided the use of wool in the production of any article, the limitation of such other order shall be observed.

(4) *Violations*. Any person who willfully violates any provisions of this order, or who in connection with this order, willfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(5) *Definitions*. For the purposes of this order:

(i) "Wool" means the fiber from the fleece of the sheep or lamb, or the hair of the Angora or Cashmere goat or camel or the alpaca, llama, vicuna, and related fibers, including fine carpet wool and coarse carpet wool, but (except for the purposes of paragraph (h)) shall not include noils, waste, reprocessed or reused wool, or yarn or cloth.

(ii) "Fine carpet wool" means wool which, under paragraph 1101 of the Tariff Act of 1930, may be imported free of duty for the manufacture of floor coverings, identified by the following names:

Persian Gulf (excluding stuffings and pieces), Aleppo Fleeces (excluding stuffings and pieces), Egyptian pulled, White (excluding fleeces and colors), Joria, Kandahar, Vicanere Super, Vicanere #1, Thibet #1, and #2 white, Iceland (except pulled), New Zealand, Welsh Mountain, Montevideo, Criolla, Ecuadorian, Cordoba 40's—38's (except combing 12 mos. growth), B. A. 5's—6's (except combing 12 mos. growth).

(iii) "Coarse carpet wool" means wool which, under paragraph 1101 of the Tariff Act of 1930, may be imported free of duty for the manufacture of floor coverings, identified by the following names: Persian Gulf-stuffings and pieces (excluding fleeces), Aleppo-stuffings and pieces (excluding fleeces), Egyptian-fleeces and colors (excluding pulled, white), Indias (other than Joria, Kandahar, Vicanere Super, Vicanere #1), Awassi-Karadi, Cyprus, Opporto, Thibet (other than #1 and #2 white), Iceland (skin), Scotch, Irish and English Black-faced, Irish Kerry, Haslock, Herdwick, Swalesdale, Devon, Cordoba 40's—36's combing 12 mos. growth only, B. A. 5's—6's combing 12 mos. growth only, Balkan pulled wools.

(iv) "Inventory" of a person includes the inventory of affiliates and subsidiaries of such person, and the inventory of others where such inventory is under the control of or under common control with or available for the use of such person.

(v) "Manufacture" means any and all processing on any system beyond the scouring operation, excepting only the carding and combing operations on the worsted system.

(vi) "Put into process" means:

(a) On the worsted system, the first process of drawing after combing.

(b) On any other system using tops, cut tops or broken tops, the first operation of cutting, breaking, picking or carding as the case may be.

(c) On the woolen, felt, or any other system not using tops, the first step after scouring, carbonizing, dusting or similar cleaning or preparatory process.

(vii) "Basic quarterly poundage" for any single system of manufacture shall mean one half of the number of pounds of wool put into process on that system by a person or for his account during the period from December 29, 1940 to June 28, 1941, both inclusive or for the period from January 1, 1941, to June 30, 1941, both inclusive, according to the method of keeping production records maintained by such person during such period. Such poundage shall be determined as follows:

(a) On the worsted system or any other system using tops, the weight of tops put into process at 15 percent moisture regain, 3¼ percent of oil and natural fats.

(b) On the woolen system, scoured wool at 12 percent moisture.

(c) On the felt or any other system, the weight of wool in the stage immediately preceding putting into process.

(6) *Reports and records*. (i) Each person who puts wool into process shall file with the War Production Board, such re-

ports or forms, setting forth the amount of wool put into process in any period, the yardage of fabrics and/or the amount of yarns produced therefrom and the fiber content of each type thereof, the amount of wool expected to be put into process in any period, the yardage of fabrics and/or the amount of yarns expected to be produced therefrom and the fiber content of each type thereof, and such other information, as the Director of Industry Operations may prescribe.

(ii) All persons who put wool into process shall keep and preserve such records as will clearly and adequately show their methods and amounts of consumption hereunder.

(7) *Reports and correspondence*. All applications, statements, or other communications filed pursuant to this order or concerning the subject matter hereof should be addressed to the War Production Board, Textile, Clothing and Leather Branch, Washington, D. C. Ref.: M-73.

(j) *Effective date*. This order shall take effect on August 3, 1942. (P.D. Reg. 1, as amended, 6 F.R. 6680; W. P. B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

## PART 1096—WOOD PULP

[Interpretation 2 of General Preference Order M-93]

The following official interpretation is hereby issued by the Director of Industry Operations with respect to § 1096.1, General Preference Order M-93,<sup>1</sup> issued March 12, as amended March 21, 1942:

"Wood pulp", as defined in subparagraph (1) of paragraph (b) of General Preference Order M-93, does not include paper or paperboard side runs.

"Other fibrous materials", as defined in subparagraph (2) of paragraph (b) of said order, includes side run paper or paperboard when retained or disposed of for use in the manufacture of paper, paperboard or paper products.

A delivery of wood pulp, within the meaning of paragraphs (c), (d) and (e) of said order, occurs when one person places wood pulp in the hands of a carrier or otherwise in transit for delivery to another person, regardless of the time when such other person actually receives such wood pulp.

A delivery ordered, reported and approved for a particular month, according to paragraph (c) of said order, may be made within three days before the first day of the particular month specified or three days after the last day of such month.

<sup>1</sup> 7 F.R. 1978, 2237, 2789.

To "file with the producer", within the meaning of item (i) of subparagraph (1) of paragraph (c) of said order, means to place in the mails or other course of delivery Form PD-290 in time to reach the producer, in the normal course of delivery, not later than the 5th of the month.

To "file with the War Production Board", within the meaning of items (ii) and (iii) of subparagraph (1) of paragraph (b) of said order, means to place in the mail or other course of delivery Form PD-291 and Form PD-292 (accompanied by the appropriate forms PD-290) in time to reach the War Production Board, in the normal course of delivery, not later than the 15th of the month.

The approval of a delivery of wood pulp by the Director of Industry Operations, or express authority from the Director of Industry Operations to make a delivery, within the meaning of paragraph (c) and (b) of said order, includes approval of and express authority to make such minor adjustments in the quantity of such delivery as may be required for efficient use of the transportation facilities available.

#### PART 1289—DIAMOND DIES

[General Conservation Order M-181]

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of diamond dies for defense, for private account, and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 1289.1 *General Conservation Order M-181*—(a) *Definitions*. For the purposes of this order:

(1) "Diamond die" means any diamond which has a hole through it and which is designed for use in the drawing of wire.

(2) "Small diamond die" means a diamond die with a hole of a diameter of 0.0015 inch or smaller.

(3) "Supplier" means any person who engages in the importation, processing, or sale of diamond dies, or any person, other than a consumer, who owns or has possession of one or more diamond dies.

(4) "Processing" means drilling, piercing, and polishing a diamond for use as a diamond die.

(5) "Consumer" means any person who uses a diamond die for the purpose of drawing wire.

(b) *Restrictions on suppliers of small diamond dies*. (1) *Reserve*. Each supplier is hereby directed to set aside his entire stock of small diamond dies, including stocks received after the date hereof from any source, as a reserve for the fulfillment of present and future Defense Orders, and such other orders and uses as may be authorized from time to time by the Director of Industry Operations.

(2) *Allocations*. No supplier shall make deliveries or withdrawals from such reserve either to fill orders received from customers or for purposes of his own processing or use except as authorized or directed by the Director of Industry Operations. The Director will from time to time allocate the supply of small diamond dies and may specifically direct: the persons to whom deliveries shall be made and from whom deliveries shall be received; the manner, amounts, and times of such deliveries; the persons who may process, and the manner, amounts, sizes, and times of processing; and the particular uses which may or may not be made. Such allocations and directions will be made to insure the satisfaction of the defense requirements of the United States, both direct and indirect, and they may be made in the discretion of the Director of Industry Operations without regard to any preference ratings assigned to particular contracts or purchase orders.

(c) *Restrictions on consumers*. Unless specifically directed or authorized by the Director of Industry Operations, no consumer after the effective date hereof shall sell or deliver any small diamond dies to any other person, except Defense Supplies Corporation, or any other Federal agency organized pursuant to Section 5 (d) of the Reconstruction Finance Corporation Act, as amended.

(d) *Reports*—(1) *Supplier*. Each supplier shall file with the War Production Board, Ref.: M-181, on or before the 15th day of each calendar month, a report on Form PD-559.

(2) *Consumer*. Each consumer shall file with the War Production Board, Ref.: M-181, on or before the 15th day of each calendar month, a report on Form PD-560.

(3) *Other reports*. All other persons affected by this order shall file such other reports, as may be required from time to time by the War Production Board.

(e) *Miscellaneous provisions*—(1) *Applicability of Priorities Regulation No. 1*. This order and all transactions affected thereby are subject to the provisions of Priorities Regulation No. 1 (Part 944) as amended from time to time, except to the extent that any provisions hereof may be inconsistent therewith, in which case the provisions of this order shall govern.

(2) *Communications to War Production Board*. All reports required to be filed hereunder, and all communications concerning this order, shall, unless otherwise directed, be addressed to: War Production Board, Miscellaneous Minerals Branch, Washington, D. C. Ref: M-181.

(3) *Violations*. Any person who willfully violates any provision of this order,

or who in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance. (P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

Issued this 1st day of July 1942.

[Amendment (18) to Revised Tire Rationing Regulations<sup>1</sup>]

##### TIRES AND TUBES, RETREADING AND RECAPPING OF TIRES, AND CAMELBACK

Section 1315.1003 is amended to read as follows:

##### *Records and Reports*

\* \* \* \* \*

§ 1315.1003 *Records and reports by sellers of tires and tubes, sellers of motor vehicles and repossessioners*. Every person selling or holding for sale new tires or tubes, retreaded or recapped tires, used tires or tubes, or motor vehicles, and every person extending credit to another upon the security of a motor vehicle under an agreement permitting the lender to take possession of the motor vehicle, shall:

(a) At the close of business on the last day of every month take an inventory based upon a physical count of all new tires and tubes, retreaded and recapped tires, and used tires and tubes in his possession or control and keep a record thereof;

(b) Maintain a file containing all certificates which have been presented by applicants to whom sales of new tires or tubes, retreaded or recapped tires, or used tires or tubes have been made;

(c) Prepare and file reports requested by the Board in his area and by the Office of Price Administration;

(d) File a report for each quarter ending on March 31, June 30, September 30 and December 31, setting forth all tires and tubes in his possession or control on the last day of such quarter and all transfers of tires and tubes made during such quarter. A separate report shall be filed for each establishment where such tires and tubes are located, whether such establishment is used for purposes of sale

#### PART 1363—FEEDINGSTUFFS

[Maximum Price Regulation 173]

##### WHEAT MILL FEEDS

In the judgment of the Price Administrator, prices of wheat mill feeds have risen to an extent and in a manner inconsistent with the purposes of the Emergency Price Control Act of 1942. The Price Administrator has ascertained and given due consideration to the prices of wheat mill feeds prevailing between October 1 and October 15, 1941, and has made adjustments for such relevant factors as he has determined and deemed to be of general applicability. The maximum prices established herein are not below prices which will reflect to producers of wheat prices for their product equal to the highest of any of the following prices for wheat, as determined by the Secretary of Agriculture: (1) 110 percent of the parity prices adjusted by the Secretary of Agriculture for grade, location, and seasonal differentials; (2) the market price prevailing on October 1, 1941; (3) the market price prevailing on December 15, 1941; or (4) the average price during the period July 1, 1919, to June 30, 1929. So far as practicable, the Price Administrator has advised and consulted with representative members of the industry which will be affected by this regulation.

In the judgment of the Price Administrator, the maximum prices established by this regulation are generally fair and equitable and will effectuate the purposes of the said Act. A statement of the considerations involved in the issuance of this regulation has been issued simultaneously herewith and has been filed with the Division of the Federal Register.

Therefore, under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, and in accordance with Procedural Regulation No. 1<sup>1</sup> issued by the Office of Price Administration, Maximum Price Regulation No. 173 is hereby issued.

1363.113 Applicability.

1363.114 Effective date.

AUTHORITY: §§ 1363.101 to 1363.114 inclusive, issued under Pub. Law 421, 77th Congress.

§ 1363.101 *Maximum prices for wheat mill feeds.* On and after July 4, 1942, regardless of any contract, agreement or other obligation, no person shall sell, deliver, buy or receive wheat mill feeds at a price higher than the maximum price permitted by § 1363.112 and no person shall agree, offer, solicit, or attempt to do any of the foregoing. The maximum prices shall include duties, brokerages, commissions, storage, insurance, carrying charges, handling charges and all other charges and shall not be increased by any charges for the extension of credit.

§ 1363.102 *Exempt sales.* The provisions of Maximum Price Regulation No. 173 and the General Maximum Price Regulation<sup>2</sup> shall not apply to sales of heavy bran flakes.

§ 1363.103 *Adjustable pricing.* Nothing in this Maximum Price Regulation No. 173 shall be construed to prohibit the making of a contract to sell wheat mill feeds at a price not to exceed the maximum price at the time of delivery or supply. Where a petition for amendment or for adjustment or exception has been filed which requires extended consideration, the Price Administrator may, upon application, grant permission to agree to adjust prices upon deliveries made during the pendency of the petition in accordance with the disposition of the petition.

§ 1363.104 *Evasion.* The price limitations set forth in Maximum Price Regulation No. 173 shall not be evaded by direct or indirect methods in connection with an offer, solicitation, agreement, sale, delivery, purchase, or receipt of or relating to wheat mill feed, alone or in connection with any other commodity, or by way of commission, service, transportation, or other charge, or discount, premium or other privilege, or by tying agreement or other trade understanding, or otherwise.

§ 1363.105 *Documents and reports.*

(a) Every person making a sale or purchase of wheat mill feeds in the course of trade or business after July 3, 1942, except sales of bran for human consumption, shall keep for inspection by the Office of Price Administration for a period of not less than two years com-

<sup>3</sup> 7 F.R. 3153, 3158.

plete and accurate records and documents of such sales and purchases including the date thereof, name of the seller and purchaser, price paid or received, buyer's receiving point and the quantity of wheat mill feed sold or purchased.

(b) Persons affected by Maximum Price Regulation No. 173 shall submit such records to the Office of Price Administration as it may from time to time require.

§ 1363.106 *Enforcement.* (a) Persons violating any provisions of Maximum Price Regulation No. 173 are subject to the criminal penalties, civil enforcement actions, license suspension proceedings, and suits for treble damages provided for by the Emergency Price Control Act of 1942.

(b) Persons who have evidence of any violation of Maximum Price Regulation No. 173 or of any act or practices which constitute such a violation are urged to communicate with the nearest Field, State or Regional Office of the Office of Price Administration or its principal office in Washington, D. C.

§ 1363.107 *Licensing; applicability of the registration and licensing provisions of the General Maximum Price Regulation.* The registration and licensing provisions of §§ 1499.15 and 1499.16 of the General Maximum Price Regulation are applicable to every person subject to this Maximum Price Regulation No. 173 selling at wholesale or retail any wheat mill feed covered by this Regulation. When used in this § 1363.107, the terms "selling at wholesale" and "selling at retail" have the definitions given to them by §§ 1499.20 (p) and 1499.20 (o), respectively, of the General Maximum Price Regulation.

§ 1363.108 *Petitions for amendment.* Persons seeking any modification of this Maximum Price Regulation No. 173 or any adjustment or exception not provided for therein may file petitions for amendment in accordance with the provisions of Procedural Regulation No. 1 issued by the Office of Price Administration.

§ 1363.109 *Applicability of the General Maximum Price Regulation.* Except as otherwise provided herein the provisions of this Maximum Price Regulation No. 173 supersede the provisions of the General Maximum Price Regulation.

§ 1363.110 *Less than maximum prices.* Lower prices than those set forth in § 1363.112 may be charged, demanded, paid or offered.

§ 1363.111 *Definitions.* (a) When used in Maximum Price Regulation No. 173 the term:

(1) "Person" includes an individual, corporation, partnership, association, or any other organized group of persons or legal successor or representative of any of the foregoing, and includes the United States or any other Government, or any other political subdivisions, or any agency of any of the foregoing.

(2) "Basing point" means any one of the following places:

- (i) Kansas City, Missouri and other Missouri River rate break points.
- (ii) Minneapolis, Minnesota.
- (iii) Seattle, Washington.
- (iv) Portland, Oregon.

(3) "Applicable basing point" means the basing point on which the price for the sale of wheat mill feeds is customarily determined for shipment to a destination not otherwise specifically provided for in § 1363.112 (a).

(4) "Missouri River rate break point" means any of the points along the Missouri River, Kansas City and northward, at which railroad rates change to proportional rates for eastbound railroad traffic.

(5) "Applicable Missouri River rate break point" means the Missouri River rate break point from which the lowest railroad carload proportional rate for the transportation of wheat mill feeds applies to the railroad siding nearest to the buyer's receiving point.

(6) "Wheat mill feeds" means the products of milling wheat whose ash content is more than 1/20th of the protein calculated to a moisture free basis plus .35 or, in the case of products of durum wheat more than 1.5% calculated to a moisture free basis (with allowance being made in either case for any increase in ash content due to the addition of bleaching, bromating, enriching, phosphating and self rising ingredients), except the following commodities which shall remain subject to the provisions, exceptions or other terms of the General Maximum Price Regulation:

- (i) Wheat germ and wheat germ meal.
- (ii) Wheat germ oil cake and wheat germ oil meal.
- (iii) Whole wheat flour and whole durum wheat flour.
- (iv) Bran for human consumption.
- (v) Other wheat products in which the proportions of the natural constituents of the wheat except for moisture remain unaltered.

(7) "Wheat germ" and "wheat germ meal" means those products of milling wheat which contain more than 25% protein and 9% fat.

(8) "Wheat germ oil cake" and "wheat germ oil meal" mean the cake and meal obtained in the removal of part of the oil from commercial wheat germ and which contain more than 29% of protein.

(9) "Heavy bran flake" means the special wheat product for human consumption which has a substantial quantity of the endosperm clinging to the bran, with the result that the crude fibre content does not exceed 7%.

(10) "Bran for human consumption" means the wheat bran which is specially cleaned and prepared for use for human consumption.

(11) "Carload quantity" means a shipment of one or more wheat mill feeds of at least the minimum total weight, as set forth in the tariffs of railroad carriers, upon which the railroad carload rate from the point of shipment to the point

of destination is based: *Provided*, That where a smaller quantity is shipped which would move at the railroad carload rate rather than at the railroad less-than-carload rate because a lower transportation charge is produced thereby, such smaller quantity shall be considered a carload quantity.

(12) "Mixed car shipment" means a shipment in carload quantity to a single buyer composed in part of wheat mill feeds and in part of products other than wheat mill feeds.

(13) "Pool car shipment" means a shipment in carload quantity of two or more less-than-carload lots to two or more buyers combined for the purpose of obtaining the carload rate.

(14) "Sale at wholesale" means a sale, other than a sale at retail, by a person who buys mill feeds and resells them without further processing.

(15) "Sale at retail" means a sale to a feeder or other ultimate user providing that the following sales shall not be deemed to be sales at retail:

- (i) Sales in carload quantities or mixed cars.
- (ii) Sales to a person who mixes the wheat mill feed with other feed ingredients for sale.

(b) Unless the context otherwise requires, the definitions set forth in section 302 of the Emergency Price Control Act of 1942 shall apply to other terms used herein.

§ 1362.112 *Appendix A: Maximum delivered prices for wheat mill feeds—(a) Maximum delivered prices for sales by millers of wheat mill feeds, sacked and shipped in carload quantities, shall be as follows:*

(1) For shipments to points within or within the switching limits of:

- (i) Kansas City, Mo. and other Missouri River rate break points—\$36.50 per net ton;
- (ii) Minneapolis, Minnesota—\$37.75 per net ton;
- (iii) Seattle, Washington—\$36.50 per net ton;
- (iv) Portland, Oregon—\$36.50 per net ton;

(2) For shipments to points in the State of Missouri located within the area bounded on the west and south by a line drawn as follows: From Kansas City, Mo. along the line of the St. Louis-San Francisco Railway Co. to Harrisonville; from Harrisonville to East Lynne; from East Lynne to Springfield; from Springfield to Cabool; from Cabool along a straight line perpendicular to the northern border of Arkansas, but not including points located on the boundary line referred to above, and also for shipments to points within the State of Arkansas and all states east of the Mississippi River with the exception of Louisiana, Minnesota, Wisconsin and the northern peninsula of Michigan, the maximum price at Kansas City, Mo. plus the charge at the lowest railroad carload proportional rate for the transportation of an identical quantity from the applicable Missouri River rate

break point to the railroad siding nearest to the point designated by the buyer as his receiving point.

(3) For shipments to points within the states of Texas and Louisiana the maximum price at Kansas City, Mo. plus the railroad charge at the lowest railroad carload proportional rate for the transportation of an identical quantity from Kansas City, Mo. to the railroad siding nearest to the point designated by the buyer as his receiving point.

(4) For shipments to points within the State of Oklahoma:

(i) In the case of shipments to points located on or north of the main line of the Chicago, Rock Island and Pacific Railway Company which runs easterly across the State of Oklahoma from Shamrock, Texas to Hartford, Arkansas, the maximum price at Kansas City, Mo. plus \$1.50 per net ton; and

(ii) To points located south of the line described in subparagraph (4) (i) above, the maximum price at Kansas City, Mo. plus \$2.50 per net ton.

(5) For shipments to points within the State of Minnesota:

(i) To points located within the area bounded on the east and north by a line running parallel to the main line of the Minnesota and International Railway Company from International Falls to Brainerd thence along the line of the Northern Pacific Railway to Minneapolis and St. Paul, thence along the main line of the Chicago and North Western Railway from St. Paul to the border of Wisconsin, including points located on the lines of the Northern Pacific Railway and the Chicago and North Western Railway referred to above, the maximum price at Minneapolis; and

(ii) To points within the State of Minnesota other than those set forth in subparagraph (5) (i) above, including points located on the main line of the Minnesota and International Railroad referred to in subparagraph (5) (i) above, the maximum price at Minneapolis plus the charge at the lowest railroad carload proportional rate for the transportation of an identical quantity from Minneapolis to the railroad siding nearest to the point designated by the buyer as his receiving point.

(6) For shipments to points within Wisconsin, Iowa and the northern peninsula of Michigan, either the maximum price at Minneapolis plus the charge at the lowest railroad carload proportional rate for the transportation of an identical quantity from Minneapolis to the railroad siding nearest to the point designated by the buyer as his receiving point, or the maximum price at Kansas City, Mo. plus the charge at the lowest railroad carload proportional rate for the transportation of an identical quantity from the applicable Missouri River rate break point to the railroad siding nearest to the point, designated by the buyer as his receiving point, whichever is less.

(7) For shipments to points within the states of Washington and Oregon west of the Cascade Mountains, the maximum price at Seattle or Portland plus

the difference between the charge at the applicable railroad rate for the transportation of an identical quantity from points of origin in the State of Washington east of the Cascade Mountains to the point designated by the buyer as his receiving point and the charge similarly computed to Seattle or Portland, as the case may be.

(8) For shipments to points within the State of California:

(i) To points located on or north of a line drawn as follows from a point on the Pacific Coast due west of Palo Alto in a straight line to Palo Alto and from Palo Alto along the main line of the Southern Pacific lines to Niles and thence to Stockton; from Stockton along the main line of the Atchison, Topeka & Santa Fe Railway to Riverbank; from Riverbank along the line of the Sierra Railway Company of California to Tuolumne; from Tuolumne in a straight line east to the Nevada border with the exception of Colusa and points located on or adjacent to the main line of the Northwestern Pacific R. R. Co., north of Santa Rosa, the maximum price at Seattle, Washington plus the lowest railroad transit balance from Seattle, Washington to the railroad siding nearest to the point designated by the buyer as his receiving point computed on the basis of the charge at the lowest railroad carload rate for the transportation of an identical quantity from Spokane, Washington to the railroad siding nearest to the point designated by the buyer as his receiving point with transit privileges at Seattle, Washington.

(ii) To points located south of the line described in subparagraph (8) (i) and including Colusa and points located on or adjacent to the main lines of the Northwestern Pacific R. R. Co., as described in subparagraph (8) (i) above, the maximum price at Seattle, Washington plus the lowest railroad transit balance from Seattle, Washington to the railroad siding nearest to the point designated by the buyer as his receiving point computed on the basis of the charge at the lowest railroad carload rate for the transportation of an identical quantity from Havre, Montana to the railroad siding nearest to the point designated by the buyer as his receiving point with transit privileges at Seattle, Washington: Except that, to points located on the line of the Southern Pacific Line from Mojave, but not including Mojave, as follows: Mojave to Searles and thence to Laws and from Searles to Trona, there may be added to the maximum price at Mojave computed pursuant to the provisions of this subparagraph (8) (ii) the charge at the lowest railroad carload rate for the transportation of an identical quantity from Mojave to the railroad siding nearest to the point designated by the buyer as his receiving point.

(9) For shipments to points within the states of Idaho, Utah, Nevada, Arizona, New Mexico, Montana, Wyoming, Colorado, North Dakota, South Dakota, Nebraska, Kansas, Missouri with the exception of the portion thereof provided for in subparagraph (2) above, and Wash-

ington and Oregon with the exception of the portion thereof provided for in subparagraph (7) above, the price at the applicable basing point as set forth in subparagraph (1) of this paragraph (a), except that, in the case of shipments to points at which prices lower or higher than the prices at the applicable basing points have customarily been obtained, the amount of the customary and established differential below or in excess of the applicable basing point price shall be deducted from or may be added to, as the case may be, the price at the applicable basing point as set forth, in subparagraph (1) of this paragraph (a).

(10) In the computation of maximum delivered prices for shipments referred to in subparagraph (a) (2), (a) (3), (a) (5) (ii), (a) (6), and (a) (8) of this paragraph an amount may be added to the prices computed pursuant to the provisions of such subparagraphs where the point designated by the buyer as his receiving point is located at a distance greater than 25 miles from the nearest railroad siding. This amount shall be computed at the rate of 1¢ per ton per mile, measured by the distance from the nearest railroad siding to the point designated by the buyer as his receiving point in excess of 25 miles. For purposes of this subparagraph (10), the distance along the shortest and most direct motor vehicle highway route shall be used in calculating the distance from the nearest railroad siding to the point designated by the buyer as his receiving point.

(b) *Maximum delivered prices for sales (other than sales at retail) in less than carload quantities.* To determine the maximum delivered prices for sales (other than sales at retail) of wheat mill feeds sacked and shipped in less than carload quantities:

(1) In the case of shipments in mixed cars, add \$1.00 per net ton to the maximum price computed under the applicable provisions of paragraph (a).

(2) In the case of other shipments in less than carload quantities including shipments in pool cars, add \$2.00 per net ton to the maximum price computed under the applicable provisions of paragraph (a).

(c) *Maximum delivered prices for sales in carload quantities at wholesale.* To determine the maximum delivered prices for sales at wholesale of wheat mill feeds, sacked, and shipped in carload quantities, add fifty cents (\$.50) per net ton to the maximum delivered price computed under the applicable provisions of paragraph (a).

(d) *Maximum delivered prices for sales at retail.* To determine the maximum prices for sales at retail of wheat mill feeds add \$4.00 per ton to the maximum price for carload shipments computed under the applicable provisions of paragraph (a) of this section. For purposes of this subparagraph in computing maximum delivered prices under the applicable provisions of paragraph (a) of this section "point designated by the buyer as his receiving point" shall mean the place of business of the retail seller.

(e) *Maximum prices for sales in carload quantities unsacked.* The maximum prices which may be charged or paid for sales of wheat mill feeds when shipped in carload quantities unsacked shall be the maximum price computed under the applicable provisions of paragraph (a) of this section less the customary differential applying to shipments of carload quantities unsacked during March, 1942.

(f) *Selection by buyer of his receiving point.* Nothing in the foregoing provisions of Maximum Price Regulation No. 173 shall be construed to prohibit any person from purchasing and receiving delivery of wheat mill feed at any point within the several states of the United States or the District of Columbia at the maximum price at that point as computed under the applicable provisions of paragraphs (a), (b), (c), (d), or (e) of this section and shipping from such point to any other point at his own expense, although the price paid at the first point plus transportation may exceed the maximum delivered price at the second point, computed under the applicable provisions of paragraph (a) of this section: *Provided*, That the maximum prices for sales in less than carload quantities and for sales at wholesale and retail established for any point in paragraphs (b), (c) and (d) shall remain in full force and effect.

(g) *Maximum delivered prices for sales of imported wheat mill feeds.* The maximum prices which can be charged or paid for wheat mill feeds entering the several states of the United States and the District of Columbia is the maximum price computed under the applicable provisions of paragraphs (a), (b), (c), or (d), of this section at the point within the several states of the United States or the District of Columbia designated by the buyer as his receiving point.

(h) *Maximum delivered prices for export sales.* For export shipments the maximum delivered prices shall be determined in accordance with the provisions of the Maximum Export Price Regulation,<sup>7</sup> issued by the Office of Price Administration on April 25, 1942. For the purpose of determining maximum prices in accordance with the Maximum Export Price Regulation, the maximum domestic prices shall be the maximum delivered prices computed under the applicable provisions of paragraph (a), (b), (c), or (d) of this section at the port of Exit.

§ 1363.113 *Applicability.* The provisions of this Maximum Price Regulation No. 173 shall be applicable to the several states of the United States and the District of Columbia.

§ 1363.114 *Effective date.* Maximum Price Regulation No. 173 (§§ 1363.101 to 1363.114, inclusive) shall become effective July 4, 1942.

## Chapter I—Federal Communications Commission

[Order 99—A]

## REPORTS BY MANUFACTURERS OF AND DEALERS IN RADIO TRANSMITTERS NOT LICENSED

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 26th day of June 1942,

The Commission having under consideration Order No. 99,<sup>1</sup> entitled "Registration of Radio Transmitters Not Licensed," as it applies to manufacturers of and dealers in such transmitters;

Now, therefore, pursuant to the authority conferred upon it by Order No. 4<sup>2</sup> dated April 16, 1942, of the Board of War Communications (formerly the Defense Communications Board):

*It is ordered:*

1. Order No. 99 shall have no application to bona fide manufacturers of or dealers in radio transmitters, anything in said Order No. 99 to the contrary notwithstanding.

2. Every such manufacturer and dealer shall, on the fifth day of each and every month beginning with August, 1942, report to the Commission every radio transmitter in his possession at the close of business on the last day of the preceding calendar month, and every radio transmitter, possession of which was transferred during the preceding calendar month to any other dealer or manufacturer, and shall furnish the serial number and location of each radio transmitter covered in such report, together with such other and further information as the Commission may require.

3. Whenever any such manufacturer or dealer shall transfer possession of a radio transmitter to any person or organization other than a manufacturer of or dealer in radio transmitters, or if any such radio transmitter is lost, stolen, destroyed, or otherwise removed from

<sup>1</sup> 7 F.R. 4344.

<sup>2</sup> 7 F.R. 2903

the possession of the manufacturer or dealer, he shall give notice of such transfer, loss, destruction, or theft within five days after its occurrence, or by July 15, 1942, whichever is the later, specifying the serial number of the unit involved and, in transfer cases, the name and address of the transferee.

4. Every manufacturer of radio transmitters shall stamp his name and a serial number on each such transmitter in his possession.

5. All reports and notices required by this Order shall be made on forms furnished by the Commission.

6. "Radio transmitter" as herein used means a device designed for transmission of communications by radio frequency energy. This Order is not intended to include apparatus commonly known as phonograph oscillators, test oscillators, signal generators and wired radio systems.

7. The following transmitters shall not be subject to any of the provisions of this Order:

(a) Transmitters in the possession of the United States Government, its officers or agents, or which are under contract for delivery to the United States Government.

(b) Transmitters operated by any manufacturer or dealer pursuant to an outstanding authorization from the Commission.

By the Commission.

[Docket No. B-272]

## HUERFANO TRADING COMPANY

## NOTICE OF AND ORDER FOR HEARING

In the matter of Huerfano Trading Company, a corporation, registered distributor, Registration No. 4586.

The Bituminous Coal Division (the "Division") finds it necessary in the proper administration of the Bituminous Coal Act of 1937 (the "Act"), and the Bituminous Coal Code (the "Code") promulgated thereunder to determine:

A. Whether or not the Huerfano Trading Company, a corporation, Registered Distributor, Registration No. 4586 (hereinafter sometimes referred to as "Registered Distributor"), whose address is 408 Russell Street, Walsenburg, Colorado, has violated any provisions of the Act, the Code, and orders and regulations of the Division, including the Marketing Rules and Regulations, Rules and Regulations for the Registration of Distributors, and the Distributor's Agreement (the "Agreement"), dated February 13, 1940, and filed by the Huerfano Trading

Company, pursuant to Order of the National Bituminous Coal Commission dated March 24, 1939, in General Docket No. 12, which was adopted as an Order of the Bituminous Coal Division on July 1, 1939, and more particularly whether or not subsequent to October 1, 1940 said Registered Distributor:

1. During the period from October 2, 1940, to February 26, 1942, both dates

| Period                          | Producer                 | Total tons | Total discounts allowed and rec'd. |
|---------------------------------|--------------------------|------------|------------------------------------|
| Oct. 2, 1940, to Feb. 26, 1942  | Calumet Coal Co.         | 1,647.95   | \$286.19                           |
| Nov. 20, 1940, to Feb. 11, 1942 | Major Coal Co.           | 215.40     | 89.69                              |
| Nov. 23, 1940, to Dec. 17, 1940 | Giardano Coal Mining Co. | 71.95      | 26.99                              |
| Jan. 7, 1941, to Feb. 11, 1941  | Butte Valley Coal Co.    | 99.80      | 39.92                              |

resulting in violations by Huerfano Trading Company of § 304.19 (a) of the Rules and Regulations for Registration of Distributors, section 4 II (i) 11 and 12 of the Act and Part II (i) 11 and 12 of the Code, Rules 11 and 12 of section XIII of the Marketing Rules and Regulations, and paragraphs (c), (e), and (g) of the Agreement.

B. Whether or not the registration of said Huerfano Trading Company, Registered Distributor, Registration No. 4586, should be revoked or suspended or other appropriate order should be entered.

*It is, therefore, ordered,* That a hearing pursuant to § 304.14 of the Rules and Regulations for the Registration of Distributors, to determine whether or not the aforementioned Huerfano Trading Company, has committed violations in the respects heretofore described and whether or not an order revoking or suspending the registration of said distributor or other appropriate order should be issued, be held on August 14, 1942, at 10 a. m. at a hearing room of the Bituminous Coal Division at the Court House, Trinidad, Colorado.

*It is further ordered,* That Charles O. Fowler or any other officer or officers of the Bituminous Coal Division duly designated for that purpose shall preside at the hearing in such matter. The officer so designated to preside at such hearing is hereby authorized to conduct said hearing, to administer oaths and affirmations, examine witnesses, take evidence, to continue said hearing from time to time, and to such places as he may direct by announcement at said hearing or any adjourned hearing or by subsequent notice, and to prepare and submit proposed findings of fact, and conclusions and recommendation of an appropriate order in the premises, and to perform all other duties in connection therewith authorized by law.

Notice of such hearing is hereby given to said Huerfano Trading Company and to all persons and entities having an interest in such proceeding.

Notice is hereby given that answer setting forth the position of the aforementioned Huerfano Trading Company, with reference to the matters hereinbefore described must be filed with the Bituminous Coal Division at its Washington Office or with any one of the field offices

inclusive, purchased for retailing by it through the Aztec Coal Company, Alamosa, Colorado, wholly-owned and controlled by the Registered Distributor, from various code member producers, at the applicable f. o. b. mine price for rail shipments, approximately 2,034.95 tons of various sizes of bituminous coal and accepted discounts from the effective minimum prices thereof as follows:

of the Division, within twenty (20) days after date of service hereof on said Huerfano Trading Company, and that failure to file an answer herein within such period, unless the presiding officer shall otherwise order, shall be deemed to be an admission by said Huerfano Trading Company, of the commission of the violations hereinbefore described and a consent to the entry of an appropriate order thereon.

All persons are hereby notified that the hearing in the above-entitled matter and orders entered therein may concern, in addition to the matters specifically alleged herein, other matters incidental and related thereto, whether raised by amendment, petition for intervention, or otherwise, and all persons are cautioned to be guided accordingly.

Dated: June 30, 1942.

ILLINOIS BELL TELEPHONE CO. AND AMERICAN TELEPHONE AND TELEGRAPH CO.

[Docket No. 6295]

INCREASED RATES OF RADIOTELEPHONE SERVICE THROUGH STATION WAY

In the matter of increased rates of Illinois Bell Telephone Company and American Telephone and Telegraph Company for radiotelephone service through Station WAY.

At a session of the Federal Communications Commission held at its office in Washington, D. C., on the 23d day of June, 1942;

It appearing that on March 24, 1942, the Commission suspended and instituted an investigation into the lawfulness of proposed increased radio-link rates of Illinois Bell Telephone Company for radiotelephone service through Station WAY; and that said proposed increased rates and changes in charges, classifications, regulations and practices may go into effect at the expiration of the ordered suspension period, prior to the final decision of the Commission in this matter;

*It is ordered,* That Illinois Bell Telephone Company and all other respondent carriers participating in telephone service through coastal harbor station WAY, shall, on and after July 2, 1942, and until further order of the Commission, each keep accurate account of all amounts received by reason of the proposed increased charges suspended by the Commission's Order of March 24, 1942; and each of such respondent participating carriers shall specify by whom and in whose behalf such amounts are paid;

*It is further ordered,* That Illinois Bell Telephone Company and all such other respondent participating carriers shall each file with the Commission a report, under oath, on or before the 10th day of each calendar month, commencing August 10, 1942, showing the amounts charged, collected and accounted for as aforesaid during the previous calendar month;

*It is further ordered,* That a copy of this Order be filed with the schedules suspended in this proceeding in the office of the Federal Communications Commission; and that a copy hereof be forthwith served upon Illinois Bell Telephone Company and American Telephone and Telegraph Company.

PRESS WIRELESS, INC.

ORDER INSTITUTING INVESTIGATION

In the matter of investigation of rates of Press Wireless, Inc. for ordinary press service between the United States and China.

At a session of the Federal Communications Commission held at the offices

in Washington, D. C., on the 23d day of June 1942;

It appearing that Press Wireless, Inc., has established certain rates, charges, classifications, regulations, and practices for and in connection with ordinary press telegraph service between the United States and China;

It further appearing that the level of rates and charges for press telegraph service between the United States and China is of great public importance;

It further appearing that the rates and charges of Press Wireless, Inc., for and in connection with similar service between the United States, on the one hand, and England, Russia, and France, on the other hand, are substantially lower than the rates and charges of said company for such service between the United States and China; and that the rates, charges, classifications, regulations, and practices of said Company for and in connection with its ordinary press telegraph service between the United States and China may be unjust, unreasonable, or otherwise unlawful;

*It is ordered,* That an investigation be, and the same is hereby, instituted into the lawfulness of rates, charges, classifications, regulations, practices, and services of Press Wireless, Inc., for and in connection with ordinary press telegraph service between the United States and China;

*It is further ordered,* That Press Wireless, Inc. be, and the same is hereby, made respondent to this proceeding and said respondent shall show cause under oath why its rates and charges for ordinary press telegraph service between the United States and China should not be reduced and it shall file its verified answer to this order on or before 15 days from the date of service of this order; and

*It is further ordered,* That the respondent, Press Wireless, Inc., shall file, within 30 days from the date of service of this order, its verified statement setting forth the following information in detail;

(1) The factors, circumstances, and estimates of revenues, expenses, and investment on which the respondent based its determination of the rates, charges, classifications, regulations and practices established by it with respect to ordinary press telegraph service between the United States and China;

(2) The factors, circumstances, and estimates of revenues, expenses, and investments on which the respondent based its determination of the rates, charges, classifications, regulations, and practices established by it with respect to its ordinary press telegraph service between the United States and countries other than China;

(3) For each month in the period beginning with the date when respondent established ordinary press telegraph service between the United States and Chungking, China, to date;

(a) The revenues received by it on account of ordinary press telegraph service between the United States and China,

classified as to terminal apparatus charges, switching apparatus charges, and radiotelegraph service charges;

(b) The special expenses incurred by it in the rendition of ordinary press telegraph service between the United States and China, such special expenses being defined as the expenses incurred because of such service which would not have been incurred but for the rendition of such service;

(c) The general expenses incurred by it as may properly be allocable to ordinary press telegraph service between the United States and China, showing in detail the bases and methods of allocation, such general expenses being defined as the joint expenses incurred on behalf of respondent's business as a whole and which cannot be identified as special expenses attributable to any particular service;

(4) The special investment made by respondent, as of the most recent date available, for the purpose of rendering ordinary press telegraph service between the United States and China, such special investment being defined as the investment made because of such service which would not have been made but for the rendition of such service;

(5) The general investment made by respondent, as of the same date as in paragraph (4) above, as may properly be allocable to ordinary press telegraph service between the United States and China, showing in detail the bases and methods of allocation, such general investment being defined as the joint investment made on behalf of respondent's business as a whole, and which cannot be attributable to any particular service;

(6) An estimate of the annual depreciation expense, with supporting detail, if available, as to estimated service lives, remaining lives, expired lives, and salvage, applicable respectively to such special investment and such general investment as are given in response to paragraphs (4) and (5) above;

(7) An estimate, if available, of the depreciation and amortization requirements applicable respectively to such special investment and such general investment as are given in response to paragraphs (4) and (5) above, as of the same date as paragraph (4) above;

(8) The accumulated Allowance of Depreciation, estimated if not known, associated respectively with such special investment and such general investment as are given in response to paragraph (4) and (5) above, as of the same date as in paragraph (4) above.

#### SECURITIES AND EXCHANGE COMMISSION.

[File No. 70-566]

#### WEST TEXAS UTILITIES COMPANY AND THE MIDDLE WEST CORPORATION

#### NOTICE OF FILING AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 29th day of June, A. D. 1942.

Notice is hereby given that a declaration or application (or both) has been filed with this Commission by West Texas Utilities Company and The Middle West Corporation pursuant to the Public Utility Holding Company Act of 1935 and particularly sections 9, 10, and 12 (d) thereof. All interested persons are referred to said declaration or application, which is on file in the office of said Commission, for a statement of the transaction therein proposed, which is summarized as follows:

West Texas Utilities Company proposes through an offer to be mailed by the company to all security holders of Pecos Valley Power & Light Company whose addresses are available, to purchase all the outstanding securities of Pecos Valley Power & Light Company that may be deposited in acceptance of the offer, upon the following terms and conditions:

1. The respective prices to be paid for said securities are as follows:

(a) For the \$1,276,000 principal amount of outstanding First Mortgage 6½% Bonds, 87½% of the principal thereof flat;

(b) For the \$727,500 principal amount of outstanding Non-Cumulative Income Debentures, 20% of the principal thereof flat;

(c) For the 3,582.66 outstanding shares of Common Stock (exclusive of 3,892.34 shares held by The Middle West Corporation but including 36.31 shares issuable under the Plan of Reorganization of Pecos Valley Power & Light Company in exchange for securities which have not been surrendered), \$1 per share.

2. The offer of purchase shall expire upon the expiration of 45 days after the mailing of such offer or at the close of business on September 1, 1942, whichever date shall be earlier, unless the time for its acceptance shall be extended by the Company for a period or periods not exceeding in the aggregate 30 days.

3. The Company shall be under no obligation to purchase any of such securities unless there shall be deposited, before the expiration of the offer, with the depository named in the offer, at least 96% of the outstanding bonds with all interest coupons maturing on and after November 1, 1942, attached, and at least 97.5% of the outstanding debentures and at least 80% of the 3,582.66 outstanding shares of stock (exclusive of 3,892.34 shares held by The Middle West Corporation), together with instructions to deliver same to or upon the order of the Company upon the payment of the purchase price therefor; but the Company reserves the right at its option to purchase at the respective prices named all securities that may be so deposited if less than the percentages above specified provided at least 90% of the principal amount of the bonds and at least 90% of the principal amount of the debentures and at least 80% of the shares of stock outstanding are so deposited.

Additional information concerning the proposed transaction is to be filed by amendment.

West Texas Utilities Company is a subsidiary of American Public Service Company which is a subsidiary of Central and Southwest Utilities Company, which is in turn a subsidiary of The Middle West Corporation, each of the latter three companies being a registered holding company.

The Middle West Corporation owns securities of Pecos Valley Power & Light Company, a direct subsidiary, as shown by the following table:

| Title of issue  | Amount owned by The Middle West Corporation | Percent of securities owned by The Middle West Corporation to total outstanding securities |
|---|---|--|
| First mortgage 10-year 6½% gold bonds, series A, due (as extended) May 1, 1950..... | \$313, 000                                  | Percent 24. 53   |
| Non-cumulative income debentures.....   | \$369, 500                                  | 50. 79   |
| Common Stock—no par value.....  | 3, 892. 34 sh.                              | 62. 07   |

The Middle West Corporation requests that it be authorized by the Commission to (a) sell to West Texas Utilities Com-

pany the bonds and the debentures of Pecos Valley Power & Light Company owned by The Middle West Corporation upon the terms of the offer as hereinbefore specified, and to (b) transfer and deliver to West Texas Utilities Company without consideration the 3,892.34 shares of common stock of Pecos Valley Power & Light Company owned by The Middle West Corporation.

It appearing to the Commission that it is appropriate in the public interest and the interest of investors and consumers that a hearing be held with respect to said matter and that said declaration shall not become effective nor said application be granted except pursuant to further order of this Commission:

*It is ordered,* That a hearing on such matter under the applicable provisions of said Act and rules of the Commission thereunder be held on July 15, 1942 at 10 o'clock A. M., E. W. T., at the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia, Pennsylvania, in the room designated on said day by the hearing-room clerk in Room 318. At such hearing, cause shall be shown why such declaration or application (or both) shall become effective or shall be granted. Notice is hereby given of said hearing to the above named declarant or applicant and to all interested persons, said notice to be given to said declarant or applicant by registered mail and to all other persons by publication in the FEDERAL REGISTER.

*It is further ordered,* That Willis E. Monty or any other officer or officers of the Commission designated by it for that purpose, shall preside at the hearing in such matter. The officer so designated to preside at any such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of said Act and to a trial examiner under the Commission's Rules of Practice.

*It is further ordered,* That without limiting the scope of issues presented by said declaration or application (or both)

otherwise to be considered in this proceeding, particular attention will be directed at the hearing to the following matters and questions:

1. Whether such acquisition will tend toward interlocking relations or the concentration of control of public utility companies of a kind or to an extent detrimental to the public interest or the interest of investors or consumers.

2. Whether the price proposed to be offered for each class of outstanding securities of Pecos Valley Power & Light Company including all fees, commissions and other remuneration to be paid in connection with such acquisitions bears a fair relation to the underlying interest of each class of security holder in the assets of Pecos Valley Power & Light Company.

3. Whether the aggregate price proposed to be offered for all the outstanding securities of Pecos Valley Power & Light Company including all fees, commissions, and other remuneration paid in connection with such acquisition is reasonable or bears a fair relation to the sums invested in or the earning capacity of the utility assets underlying the securities of Pecos Valley Power & Light Company.

4. Whether such acquisition will unduly complicate the capital structure of the holding company system of the applicants or will be detrimental to the public interest or the interest of investors or consumers or the proper functioning of such holding company system.

5. Whether such acquisition will serve the public interest by tending towards the economical and efficient development of an integrated public utility system.

6. Whether it is necessary or appropriate in the public interest or for the protection of investors or consumers to impose as a term or condition to the granting of an order approving the acquisition of such securities, any of the following:

(A) A term or condition with respect to assuring a merger or consolidation of

Pecos Valley Power & Light Company and West Texas Utilities Company.

(B) Any other terms or conditions which may be appropriate in the premises.

By the Commission.
